Bath & Body Works Reports Third Quarter 2024 Results

*Net Sales of \$1.6 Billion, Increased 3%; Earnings Per Diluted Share of \$0.49, Both Exceeding Guidance
Updates Fiscal Year 2024 Guidance*

COLUMBUS, Ohio – November 25, 2024 - Bath & Body Works, Inc. (NYSE: BBWI) today reported third quarter 2024 results.

Gina Boswell, CEO of Bath & Body Works, commented, “Our strong results exceeded the high end of our net sales and earnings per diluted share guidance. As a result, we are raising our full-year guidance to fully reflect this outperformance.”

Boswell added, "Innovation across our core products, adjacencies, and collaborations is resonating with both new and existing customers supported by the investments we have made in marketing and technology. We are capitalizing on our agile business model and predominantly U.S.-based supply chain, and we believe we are well-positioned to navigate a volatile retail environment and shorter holiday calendar. As we enter the critical holiday period, I am pleased with our strong execution and the momentum we are building, as we drive towards sustainable, long-term profitable growth.”

Third Quarter 2024 Results

The company reported net sales of \$1,610 million for the quarter ended November 2, 2024, an increase of 3.0% compared to net sales of \$1,562 million for the quarter ended October 28, 2023.

The company reported earnings per diluted share of \$0.49 for the third quarter 2024, compared to \$0.52 last year. Third quarter operating income was \$218 million compared to \$221 million last year, and net income was \$106 million compared to \$119 million last year.

Reported third quarter 2023 results included a \$12 million pre-tax gain (\$9 million net of tax of \$3 million) associated with the early extinguishment of debt. Excluding this item, third quarter 2023 adjusted earnings per diluted share was \$0.48 and adjusted net income was \$110 million.

At the conclusion of this press release is a reconciliation of reported-to-adjusted results, including a description of the adjusted items.

2024 Guidance

The company expects the 13-week fourth quarter 2024 net sales to range between a decline of 6.5% to a decline of 4.5%, compared to \$2,912 million for the 14-week fourth quarter 2023. We expect fourth quarter net sales will incur a headwind of approximately 500 basis points due to the shifted fiscal calendar, resulting from and including the extra week in 2023. Fourth quarter earnings per diluted share is expected to be between \$1.94 and \$2.07, compared to \$2.55 in the fourth quarter 2023, and adjusted earnings per diluted share of \$2.06 in the fourth quarter 2023.

For fiscal 2024, the company has raised its full-year net sales and earnings guidance from the guidance provided in August. We now expect net sales to range between a decline of 2.5% to a decline of 1.7%, relative to \$7,429 million in fiscal 2023. The 53rd week in fiscal 2023 represents a headwind of approximately 100 basis points to net sales change in fiscal 2024. Full-year 2024 earnings per diluted share is now expected to be between \$3.46 and \$3.59, compared to earnings per diluted share of \$3.84 in 2023. Full-year 2024 adjusted earnings per diluted share is now expected to be between \$3.15 and \$3.28, compared to adjusted earnings per diluted share of \$3.27 in fiscal 2023. The company's full-year guidance includes the anticipated impact of \$400 million of cash deployed towards share repurchases.

NOTES TO RECONCILIATION OF GAAP FINANCIAL MEASURES
TO NON-GAAP FINANCIAL MEASURES
(Unaudited)

The “Adjusted Financial Information” provided in the attached reflects the following non-GAAP financial measures:

Fiscal 2024

There were no adjustments to results in the third quarter of 2024.

In the second quarter of 2024, adjusted results excludes the following:

- A \$39 million aggregate pre-tax gain (\$25 million net of tax of \$14 million), included in other income, related to the sales of certain Easton investments.
- A \$44 million tax benefit related to the release of a valuation allowance on a deferred tax asset.

There were no adjustments to results in the first quarter of 2024.

Full-year 2024 Adjusted Forecasted Net Income per Diluted Share excludes the adjustments referenced above.

Fiscal 2023

In the third quarter of 2023, adjusted results exclude a:

- \$12 million pre-tax gain (\$9 million net of tax of \$3 million), included in other income, associated with the early extinguishment of outstanding notes.

In the second quarter of 2023, adjusted results exclude a:

- \$9 million pre-tax gain (\$7 million net of tax of \$2 million), included in other income, associated with the early extinguishment of outstanding notes.

In the first quarter of 2023, adjusted results exclude a:

- \$7 million pre-tax gain (\$5 million net of tax of \$2 million), included in other income, associated with the early extinguishment of outstanding notes.

The adjusted financial information should not be construed as an alternative to the results determined in accordance with generally accepted accounting principles. Further, the company’s definitions of adjusted income information may differ from similarly titled measures used by other companies. Management believes that the presentation of adjusted financial information provides additional information to investors to facilitate the comparison of past and present operations. While it is not possible to predict future results, management believes the adjusted financial information is useful for the assessment of the operations of the company because the adjusted items are not indicative of the company’s ongoing operations due to their size and nature. Additionally, management uses adjusted financial information as key performance measures for the purpose of evaluating performance internally. The adjusted financial information should be read in conjunction with the company’s historical financial statements and notes thereto contained in the company’s Quarterly Reports on Form 10-Q and Annual Report on Form 10-K.
