

Prospectus Supplement
 To Prospectus dated April 20, 2010

Limitedbrands
Limited Brands, Inc.
\$400,000,000
7% Senior Notes due 2020

We are offering \$400,000,000 aggregate principal amount of 7% Senior Notes due 2020. We will pay interest on the notes on May 1 and November 1 of each year, beginning November 1, 2010. The notes will mature on May 1, 2020.

We may redeem some or all of the notes at any time at a price equal to 107% of the principal amount of the notes plus accrued and unpaid interest plus a “make-whole” premium. We may also redeem up to 35% of the notes using the proceeds of certain equity offerings completed before May 1, 2013. If a change of control triggering event as defined in this prospectus supplement under the heading “Description of the Notes—Change of control” occurs, we may be required to offer to purchase the notes from the holders.

Concurrently with this offering, we are offering to purchase up to \$400 million in aggregate of any and all of our 6.125% senior notes due 2012 and up to the amount of our tender cap remaining of our 5.250% senior notes due 2014 in a separate tender offer. This offering is not contingent on any minimum being received in the tender offers.

The notes will rank equally with all our existing and future senior debt and rank senior to all our future subordinated debt, if any. The notes will be guaranteed by certain of our subsidiaries on a senior unsecured basis and will therefore rank senior to any series of our existing and future senior unsecured notes that are not guaranteed by our subsidiaries to the extent of the value of the assets of such subsidiary guarantors. The notes and the guarantees will rank effectively junior to all secured debt of ours and the guarantors to the extent of the value of the assets securing such debt.

The notes will not be listed on any securities exchange. Currently, there is no public market for the notes.

Investing in the notes involves risks. See “Risk Factors” beginning on page S-13 of this prospectus supplement for a discussion of certain risks that you should consider in connection with an investment in the notes.

Our Company

Limited Brands is committed to building a family of the world's best fashion brands offering captivating customer experiences that drive long-term loyalty and deliver sustained value for our stakeholders. Founded in 1963 in Columbus, Ohio, Limited Brands has evolved from an apparel-based specialty retailer to an approximately \$9 billion segment leader focused on lingerie, beauty and personal care product categories that make customers feel sexy, sophisticated and forever young.

We lead these product categories through our *Victoria's Secret* and *Bath & Body Works* brands. We sell our products at more than 1,000 Victoria's Secret stores and over 1,600 Bath & Body Works stores nationwide, via the Victoria's Secret Catalogue and online at www.VictoriasSecret.com and www.BathandBodyWorks.com. We also sell upscale accessory products through our Henri Bendel flagship and 10 accessory stores, as well as online at www.HenriBendel.com. Through our La Senza, Bath & Body Works and Pink brands, products are also available in retail venues in Canada. Additionally, La Senza has franchising relationships in 49 countries around the globe. Victoria's Secret products are also made available on a wholesale basis to duty-free stores and other international retail locations.

Victoria's Secret is the leading U.S. specialty retailer of lingerie with modern, fashion-inspired collections, prestige fragrances and cosmetics, celebrated supermodels and world-famous runway shows. Victoria's Secret lingerie and beauty stores, the catalogue and www.VictoriasSecret.com allow customers to shop the brand anywhere, any time, from any place for glamorous and sexy products from lines such as Very Sexy®, Body by Victoria®, Angels by Victoria's Secret®, VS Cotton™, BioFit® and Victoria's Secret PINK®, and luxurious beauty products from lines such as Dream Angels™, Victoria's Secret PINK®, Beauty Rush® and Very Sexy®.

Bath & Body Works has reinvented the personal care industry with the introduction of fragrant flavorful indulgences, including shower gels, lotions, antibacterial soaps, candles and accessories. Combining the introduction of spa products that are easily used at home with the incorporation of simple rituals into daily life, Bath & Body Works is committed to helping consumers improve their emotional and physical well-being. With a focus on creating and offering the best products, and an emphasis on innovation, Bath & Body Works is the ultimate personal care destination.

Our Strengths

We believe the following competitive strengths contribute to our leading market position, differentiate us from our competitors, and will drive future growth:

Industry leading brands

We believe that our two flagship brands, *Victoria's Secret* and *Bath & Body Works*, are almost universally recognized and others, including *PINK* and *La Senza*, exhibit brand recognition which provides us

with a competitive advantage. These brands are aspirational at accessible price points and have a loyal customer base. These brands allow us to target markets across the economic spectrum, across demographics and across the world.

- At Victoria's Secret, we market products to the late-teen and college-age woman with PINK and then transition her into glamorous and sexy product lines, such as Angels, Very Sexy or Body by Victoria. While bras and panties are the core of what we do, these brands also give our customers choices in clothing, accessories, fragrances, lotions, cosmetics, and athletic attire.
- Bath & Body Works caters to our customers' entire well-being, providing shower gels and lotions, aromatherapy, antibacterial soaps, candles and personal care accessories.
- In Canada, La Senza is a leader in the intimate apparel market.

In-store experience and store operations

We view the customer's in-store experience as an important vehicle for communicating the image of each brand. We utilize visual presentation of merchandise, in-store marketing, music and our sales associates to reinforce the image represented by the brands.

Our in-store marketing is designed to convey the principal elements and personality of each brand. The store design, furniture, fixtures and music are all carefully planned and coordinated to create a shopping experience. Every brand displays merchandise uniformly to ensure a consistent store experience, regardless of location. Store managers receive detailed plans designating fixture and merchandise placement to ensure coordinated execution of the company-wide merchandising strategy.

Our sales associates and managers are a central element in creating the atmosphere of the stores by providing a high level of customer service.

Product development, sourcing and logistics

We believe a large part of our success comes from frequent product launches, which include bra launches at Victoria's Secret and the recent restage of the Signature Collection and antibacterial lines at Bath & Body Works. Our merchant, design and sourcing teams at Victoria's Secret and our apparel sourcing function have a long history of bringing new products to our customers. Our personal care sourcing function works with our merchant teams to bring new ideas to the Bath & Body Works and Victoria's Secret Beauty customer.

We have an integrated supply chain leading from our key manufacturing partners around the world, through our distribution centers in Columbus, Ohio, to our stores. We believe that our apparel sourcing function has a long and deep presence in the key sourcing markets of Asia, which helps us partner with the best manufacturers and get high quality products to our customers quickly.

Experienced and committed management team

Limited Brands was founded in 1963 and has been led since inception by Leslie H. Wexner. Our senior management team has a wealth of retail and business experience at Limited Brands and other companies, such as Nieman Marcus, Target, The Gap, Inc., The Home Depot, Carlson Companies and Yum Brands. We believe that we have one of the most experienced management teams in retail.

Our Strategy

Our strategy supports and drives our mission to build a family of the world's best fashion retail brands whose well-told stories create loyal customers. To this end, we are focused on these key strategic imperatives:

- Grow and maximize profitability of our core brands in current channels and geographies
- Extend our core brands into new channels and geographies
- Incubate and grow new brands in current channels
- Build enabling infrastructure and capabilities

Grow and maximize profitability of our core brands in current channels and geographies

The core of the Victoria's Secret brand is bras and panties. We see clear opportunities for substantial growth in these categories by focusing on product newness and innovation and expanding into under-penetrated market and price segments. In our direct channel, we have the infrastructure in place to support growth well into the future. We believe our direct channel is an important form of brand advertising given the ubiquitous nature of the internet and our large mailing list.

The core of Bath & Body Works is its Signature Collection, antibacterial and home fragrance product lines, which together make up the majority of sales and profits for the business. During the past year we restaged both the Signature Collection and our antibacterial lines with more compelling fragrances, improved formulas and updated packaging. Additionally, www.BathandBodyWorks.com, which launched in 2006, continues to exhibit strong year-over-year growth.

We have a multi-year initiative to substantially increase operating margins for our brands through merchandise margin expansion and expense rationalization. With regard to merchandise margin expansion, we actively manage our inventory to minimize the level of promotional activity and we have and will continue to work with our merchandise vendors on innovation, quality, speed and cost. Additionally, we have made a concerted effort to manage home office headcount and overhead expenses. Finally, we have and will continue to optimize our marketing expense by concentrating our expenditures on efficient and return-generating programs.

Extend our core brands into new channels and geographies

We began our international expansion with the acquisition of La Senza at the beginning of 2007. Since 2008, we opened 31 Bath & Body Works stores and four Victoria's Secret Pink stores in Canada. Based on the success we have experienced in Canada, we plan to open an additional 30 to 35 Bath & Body Works stores and five more Victoria's Secret Pink stores in 2010. We also plan to open our first four Victoria's Secret stores in Canada in 2010.

We are also reviewing international opportunities outside of North America. In 2009, our partners opened seven Victoria's Secret travel and tourism stores with six of those stores outside of the United States. These stores are principally located in airports and tourist destinations. These stores are focused on Victoria's Secret branded beauty and accessory products and are operated by partners under a wholesale model. Our partners plan to open 10 to 15 more Victoria's Secret travel and tourism stores in 2010. We continue to analyze and explore how to further expand our brands outside of North America.

Incubate and grow new brands in current channels

Our most successful brands have either been conceived or incubated within Limited Brands. This includes Bath & Body Works and Victoria's Secret. We are constantly experimenting with new ideas, and our current efforts include standalone PINK stores and a small-store version of Henri Bendel focused on accessories.

Build enabling infrastructure and capabilities

Over the past four years, we have opened a new Direct to Consumer distribution center, launched new merchandise planning systems, new supply chain management systems and new financial systems. We are using these capabilities to be able to more productively react to current market conditions, improve inventory accuracy, turnover and in-stock levels and deliver more targeted assortments at the store level. Going forward, we plan to implement new point-of-sale systems in our stores and new finance and other support systems in our direct channel.

Recent Developments

Amendment of credit agreement and termination of term loan

In March 2010, we entered into an amendment and restatement of our amended and restated revolving credit agreement (the "Amendment") dated as of March 8, 2010 among the Company, JPMorgan Chase Bank, N.A., as administrative agent and collateral agent, and the lenders party thereto (as amended and restated, the "Credit Agreement"). Prior to the Amendment, our secured revolving facility under the Credit Agreement (the "Revolving Facility") was in the amount of \$1,000,000,000 and expired on August 3, 2012. As a result of the Amendment, the amount of the Revolving Facility was reduced to \$926,666,667, the termination date of \$800,000,000 of the commitments under the Revolving Facility was extended from August 3, 2012 to August 1, 2014 (the "2014 Commitments") and the termination date of the remaining \$126,666,667 of commitments under the Revolving Facility remained August 3, 2012 (the "2012 Commitments"). The Amendment established two Classes of Commitments and loans under the Credit Agreement, Class A Loans to be made by lenders pursuant to the 2014 Commitments, and Class B Loans, to be made by pursuant to the 2012 Commitments.

As a condition to the effectiveness of the Amendment, on March 8, 2010, the Company repaid all remaining outstanding obligations accrued and owing under the amended and restated term loan credit agreement, dated as of February 19, 2009 among the Company, JPMorgan Chase Bank, N.A., as administrative agent, and the lenders party thereto (the "Term Loan"), which amounted to approximately \$200,000,000 and terminated the Term Loan.

Additionally, the Amendment modifies certain covenants. See "Description of Certain Debt."

Special dividend and share repurchase program

On March 15, 2010, we announced that our board of directors declared a special dividend of \$1 per share and authorized a \$200 million share repurchase program. The special dividend was paid on April 19, 2010 to shareholders of record at the close of business on April 5, 2010. Share repurchases will be made at the times, in the amounts and in the manner that the Company believes appropriate. The newly authorized \$200 million repurchase program includes \$31 million remaining under the Company's previous \$250 million repurchase program.

Tender Offers

On April 20, 2010, we commenced offers to purchase for cash an aggregate principal amount of up to \$400 million, which we refer to as the Tender Cap, of existing debt securities as follows:

- our 6.125% senior notes due 2012, which we refer to as the 2012 Notes; and
- our 5.250% senior notes due 2014, which we refer to as the 2014 Notes.

The offers to purchase consist of two separate offers with one offer to purchase any and all of the outstanding 2012 Notes and a second offer to purchase 2014 Notes in an aggregate principal amount equal to the amount of the Tender Cap remaining for the purchase of the 2014 Notes following the purchase of the 2012 Notes.

We cannot assure you that the tender offers will be consummated in accordance with their terms, or at all, or that a significant principal amount of the 2012 Notes or the 2014 Notes will be retired and cancelled pursuant to the tender offers. The present offering is not conditioned upon the successful consummation of the tender offers. For a discussion of the terms of the 2012 Notes and the 2014 Notes, see “Liquidity and Capital Resources” and the notes to the financial statements of our Annual Report on Form 10-K for the year ended January 30, 2010 incorporated by reference in this prospectus supplement.

Certain covenants

The indenture governing the notes will restrict our ability and the ability of our subsidiaries to, among other things:

- create certain liens; and

[Table of Contents](#)

These covenants are subject to important exceptions and qualifications described under the heading “Description of the Notes.”

Use of proceeds

We intend to use the net proceeds of the offering, after deducting underwriting discounts and commission and estimated offering expenses, to fund offers to purchase up to \$400 million of our 6.125% senior notes due 2012 (the “2012 Notes”) and our 5.250% senior notes due 2014 (the “2014 Notes”), for general corporate purposes and for the repayment of other indebtedness. - (1) EBITDA is not a recognized term under GAAP and does not purport to be an alternative to net income as a measure of operating performance or to cash flows from operating activities as a measure of liquidity. Additionally, it is not intended to be a measure of free cash flow for management's discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements. Because not all companies use identical calculations, this presentation may not be comparable to other similarly titled measures of other companies.
- (2) For purposes of calculating the ratio of earnings to fixed charges, earnings consist of income before income taxes plus fixed charges.
- (3) Net Debt is total debt minus cash.

RISK FACTORS

In deciding whether to purchase the notes, you should carefully consider the risks described below, which could cause our operating results and financial condition to be materially adversely affected, as well as other information and data included in or incorporated by reference into this prospectus supplement.

Risks relating to the notes

Our substantial level of indebtedness could materially adversely affect our ability to fulfill our obligations under the notes, our ability to react to changes in our business and our ability to incur additional debt to fund future needs

We have a substantial amount of debt. As of January 30, 2010, after giving effect to this offering, the use of proceeds as described under “Use of Proceeds” (assuming the \$400 million of existing notes are purchased in the tender offers), and the payment of our term loan credit agreement as described under “Description of Certain Debt—Credit Facility,” we would have had total debt of \$2,525 million. For more detail regarding our total debt, see “Capitalization.”

Our substantial debt could have important consequences for our noteholders. For example, it could:

- make it more difficult for us to satisfy our obligations with respect to the notes;
- require us to dedicate a substantial portion of our cash flow from operations to payments on our debt, thereby reducing funds available for working capital, capital expenditures, acquisitions, research and development and other purposes;
- increase our vulnerability to adverse economic and industry conditions;
- limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;
- limit our noteholders’ rights to receive payments under the notes if secured creditors have not been paid;
- limit our ability to borrow additional funds, or to secure assets to raise funds, if needed, for working capital, capital expenditures, acquisitions, research and development and other purposes; and
- prevent us from raising the funds necessary to repurchase all notes tendered to us upon the occurrence of certain changes of control, which would constitute a default under the indenture governing the notes.

Restrictions imposed by our senior credit facility, our existing indentures and the indenture governing the notes may limit our ability to operate our business and to finance our future operations or capital needs or to engage in other business activities.

Claims of noteholders will be structurally subordinate to claims of creditors of our non-guarantor subsidiaries

As of the issue date, the notes will not be guaranteed by any of our subsidiaries who do not guarantee our senior credit facility. Claims of holders of the notes will be structurally subordinated to all of the liabilities of our subsidiaries that do not guarantee the notes. (As of January 30, 2010, after giving effect to this offering, the use of proceeds as described under “Use of Proceeds” (assuming the \$400 million of existing notes are purchased in the tender offers), and the payment of our term loan agreement as described under “Description of Certain Debt—Credit Facility,” our subsidiaries that are not guarantors would have had \$2 million of indebtedness.) In the event of a bankruptcy, liquidation or dissolution of any of the non-guarantor subsidiaries, holders of their indebtedness and their trade creditors will generally be entitled to payment on their claims from assets of those subsidiaries before any assets are made available for distribution to us. However, under some circumstances, the terms of the notes will permit our non-guarantor subsidiaries to incur additional specified indebtedness.

[Table of Contents](#)

We and our subsidiaries may be able to incur substantially more debt, including secured debt

Subject to the restrictions in our senior credit facility, the indentures governing the notes and our other outstanding indebtedness, we and our subsidiaries may incur significant additional debt, including secured debt, that would be effectively senior to the notes to the extent of the value of the assets securing such debt. Although the terms of these facilities and the indentures governing the notes and our other outstanding indebtedness contain restrictions on the incurrence of additional debt, including secured debt, these restrictions are subject to a number of important exceptions, and debt incurred in compliance with these restrictions could be substantial. If we and our restricted subsidiaries incur significant additional debt, the related risks that we face could intensify.

We may not be able to finance a change of control offer required by the indenture

Upon a change of control triggering event, as defined under the indenture governing the notes, you will have the right to require us to offer to purchase all of the notes then outstanding at a price equal to 101% of the principal amount of the notes, plus accrued interest. In order to obtain sufficient funds to pay the purchase price of the outstanding notes, we expect that we would have to refinance the notes. We cannot assure you that we would be able to refinance the notes on reasonable terms, if at all. Our failure to offer to purchase all outstanding notes or to purchase all validly tendered notes would be an event of default under the indenture. Such an event of default may cause the acceleration of our other debt. Our future debt also may contain restrictions on repayment requirements with respect to specified events or transactions that constitute a change of control under the indenture.

Federal and state statutes allow courts, under specific circumstances, to void the guarantees of the notes by our subsidiaries and require the holders of the notes to return payments received from the subsidiary guarantors

Under the federal bankruptcy law and comparable provisions of state fraudulent transfer laws, the subsidiary guarantees could be voided, or claims in respect of the subsidiary guarantees could be subordinated to all other debts of a subsidiary guarantor if, either, the subsidiary guarantee was incurred with the intent to hinder, delay or defraud any present or future creditors of the subsidiary guarantor or the subsidiary guarantors, at the time it incurred the indebtedness evidenced by its subsidiary guarantee, received less than reasonably equivalent value or fair consideration for the incurrence of such indebtedness and the subsidiary guarantor either:

- was insolvent or rendered insolvent by reason of such incurrence;
- was engaged in a business or transaction for which such subsidiary guarantor's remaining assets constituted unreasonably small capital; or
- intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they mature.

If a subsidiary guarantee is voided, you will be unable to rely on the applicable subsidiary guarantor to satisfy your claim in the event that we fail to make one or more required payments due on the notes. In addition, any payment by such subsidiary guarantor pursuant to its subsidiary guarantee could be voided and required to be returned to such subsidiary guarantor, or to a fund for the benefit of creditors of such subsidiary guarantor.

The measures of insolvency for purposes of these fraudulent transfer laws will vary depending upon the law applied in any proceeding to determine whether a fraudulent transfer has occurred. Generally, however, a subsidiary guarantor would be considered insolvent if:

- the sum of its debts, including contingent liabilities, were greater than the fair saleable value of all of its assets;

Table of Contents

- the present fair saleable value of its assets were less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or
- it could not pay its debts as they become due.

There can be no assurance, however, as to what standard a court would apply in making such determinations or that a court would agree with our or the subsidiary guarantors' conclusions in this regard.

Risks relating to our business and operations

Our revenue, profit results and cash flow are sensitive to, and may be adversely affected by, general economic conditions, consumer confidence and spending patterns.

Our growth, sales and profitability may be adversely affected by negative local, regional, national or international political or economic trends or developments that reduce the consumers' ability or willingness to spend, including the effects of national and international security concerns such as war, terrorism or the threat thereof. In particular, our operating results are generally impacted by changes in the United States and Canadian economies. Negative economic conditions may impact the level of consumer spending and inhibit customers' use of credit. Purchases of women's intimate and other apparel, beauty and personal care products and accessories often decline during periods when economic or market conditions are unsettled or weak. In such circumstances, we may increase the number of promotional sales, which could have a material adverse effect on our results of operations and financial condition.

The global economic crisis could also impair the solvency of our suppliers, customers and other counterparties.

There could be a number of additional effects from the ongoing economic downturn. The inability of key suppliers to access liquidity, or the insolvency of key suppliers, could lead to delivery delays or failures. We provide merchandise sourcing services to other retailers and licensees and grant credit to these parties in the normal course of business which subjects us to potential credit risk. Additionally, we have guaranteed certain lease payments of certain of our former subsidiaries. Financial difficulties of our customers or those former subsidiaries for whom we guarantee lease payments could have a material adverse effect on our results of operations and financial condition. Finally, other counterparty failures, including banks and counterparties to contractual arrangements, could negatively impact our business.

The global economic crisis could have a material adverse effect on our liquidity and capital resources.

The general economic and capital market conditions in the United States and other parts of the world have deteriorated significantly. These conditions have affected access to capital and increased the cost of capital. Although we believe that our capital structure and credit facilities will provide sufficient liquidity, there can be no assurance that our liquidity will not be affected by changes in the financial markets or that our capital resources will at all times be sufficient to satisfy our liquidity needs. If these conditions continue or become worse, our future cost of debt and equity capital and access to the capital markets could be adversely affected.

Our net sales depend on a volume of traffic to our stores and the availability of suitable lease space.

Most of our stores are located in retail shopping areas including malls and other types of retail centers. Sales at these stores are derived, in part, from the high volume of traffic in those retail areas. Our stores benefit from the ability of the retail center and other attractions in an area, including "destination" retail stores, to generate consumer traffic in the vicinity of our stores. Sales volume and retail traffic may be adversely affected by economic downturns in a particular area, competition from other retail and non-retail attractions and other retail areas where we do not have stores. Recently, sales volume has been adversely affected by the recessionary economic conditions.

[Table of Contents](#)

Part of our future growth is significantly dependent on our ability to operate stores in desirable locations with capital investment and lease costs providing the opportunity to earn a reasonable return. We cannot be sure as to when or whether such desirable locations will become available at reasonable costs.

Our net sales, operating income and inventory levels fluctuate on a seasonal basis.

We experience major seasonal fluctuations in our net sales and operating income, with a significant portion of our operating income typically realized during the fourth quarter holiday season. Any decrease in sales or margins during this period could have a material adverse effect on our results of operations and financial condition.

Seasonal fluctuations also affect our inventory levels, since we usually order merchandise in advance of peak selling periods and sometimes before new fashion trends are confirmed by customer purchases. We must carry a significant amount of inventory, especially before the holiday season selling period. If we are not successful in selling inventory, we may have to sell the inventory at significantly reduced prices or may not be able to sell the inventory at all, which could have a material adverse effect on our results of operations and financial condition.

Our ability to grow depends in part on new store openings and existing store remodels and expansions.

Our continued growth and success will depend in part on our ability to open and operate new stores and expand and remodel existing stores on a timely and profitable basis. Accomplishing our new and existing store expansion goals will depend upon a number of factors, including the ability to partner with developers and landlords to obtain suitable sites for new and expanded stores at acceptable costs, the hiring and training of qualified personnel, particularly at the store management level, and the integration of new stores into existing operations. There can be no assurance we will be able to achieve our store expansion goals, manage our growth effectively, successfully integrate the planned new stores into our operations or operate our new, remodeled and expanded stores profitably.

Our plans for international expansion include risks that could adversely impact our financial results and reputation.

We intend to further expand into international markets through franchise/distribution agreements and/or company-owned stores. The risks associated with our expansion into international markets include difficulties in attracting customers due to a lack of customer familiarity with our brands, our lack of familiarity with local customer preferences and seasonal differences in the market. Further, entry into this market may bring us into competition with new competitors or with existing competitors with an established market presence. Other risks include general economic conditions in specific countries or markets, disruptions or delays in shipments, changes in diplomatic and trade relationships, political instability and foreign governmental regulation.

We also have risks related to identifying suitable partners as franchisees, distributors or in a similar capacity. In addition, certain aspects of these arrangements are not directly within our control, such as the ability of these third parties to meet their projections regarding store openings and sales. We cannot ensure the profitability or success of our expansion into international markets. These risks could have a material adverse effect on our brand image and reputation as well as our results of operations, financial condition and cash flows.

Our licensees could take actions that could harm our business or brand images.

We have global representation through independently owned La Senza stores operated by licensees. Although we have criteria to evaluate and select prospective licensees, the amount of control we can exercise over our licensees is limited and the quality of licensed operations may be diminished by any number of factors beyond our control. Licensees may not have the business acumen or financial resources necessary to successfully operate stores in a manner consistent with our standards and may not hire and train qualified store managers and

[Table of Contents](#)

other personnel. Our brand image and reputation may suffer materially and our sales could decline if our licensees do not operate successfully.

Our direct channel business includes risks that could have an adverse effect on our results from operations or financial condition.

Our direct operations are subject to numerous risks that could have a material adverse effect on our operational results. Risks include, but are not limited to, the (a) diversion of sales from our stores, which may impact comparable store sales figures, (b) difficulty in recreating the in-store experience through our direct channels, (c) domestic or international resellers purchasing merchandise and re-selling it overseas outside our control, (d) risks related to the failure of the systems that operate the web sites and their related support systems, including computer viruses, theft of customer information, privacy concerns, telecommunication failures and electronic break-ins and similar disruptions, and (e) risks related to our direct-to-consumer distribution center. Any of these events could have a material adverse effect on our results of operations and financial condition.

Our failure to protect our reputation could have a material adverse effect on our brand images.

Our ability to maintain our reputation is critical to our brand images. Our reputation could be jeopardized if we fail to maintain high standards for merchandise quality and integrity. Any negative publicity about these types of concerns may reduce demand for our merchandise. Failure to comply with ethical, social, product, labor and environmental standards, or related political considerations, could also jeopardize our reputation and potentially lead to various adverse consumer actions, including boycotts. Failure to comply with local laws and regulations, to maintain an effective system of internal controls or to provide accurate and timely financial statement information could also hurt our reputation. Damage to our reputation or loss of consumer confidence for any of these or other reasons could have a material adverse effect on our results of operations and financial condition, as well as require additional resources to rebuild our reputation.

Our failure to adequately protect our trade names, trademarks and patents could have a negative impact on our brand images and limit our ability to penetrate new markets.

We believe that our trade names, trademarks and patents are an essential element of our strategy. We have obtained or applied for federal registration of these trade names, trademarks and patents and have applied for or obtained registrations in many foreign countries. There can be no assurance that we will obtain such registrations or that the registrations we obtain will prevent the imitation of our products or infringement of our intellectual property rights by others. If any third-party copies our products in a manner that projects lesser quality or carries a negative connotation, our brand images could be adversely affected.

Our results can be adversely affected by market disruptions.

Market disruptions due to severe weather conditions, natural disasters, health hazards, terrorist activities, financial crises, political crises or other major events or the prospect of these events can affect consumer spending and confidence levels and adversely affect our results or prospects in affected markets. The receipt of proceeds under any insurance we maintain for these purposes may be delayed or the proceeds may be insufficient to fully offset our losses.

Our stock price may be volatile.

Our stock price may fluctuate substantially as a result of quarter to quarter variations in our actual or projected performance or the financial performance of other companies in the retail industry. In addition, the stock market has experienced price and volume fluctuations that have affected the market price of many retail and other stocks and that have often been unrelated or disproportionate to the operating performance of these companies.

[Table of Contents](#)

Our failure to maintain our credit rating could negatively affect our ability to access capital and would increase our interest expense.

The credit ratings agencies periodically review our capital structure and the quality and stability of our earnings. Any negative ratings actions could constrain the capital available to our company or our industry and could limit our access to funding for our operations. We are dependent upon our ability to access capital at rates and on terms we determine to be attractive. If our ability to access capital becomes constrained, our interest costs will likely increase, which could have a material adverse effect on our results of operations and financial condition. Additionally, our failure to maintain our credit rating would result in higher interest costs.

We may be unable to service our debt.

We may be unable to service our outstanding debt or any other debt we incur. Additionally, some of our debt agreements contain covenants which require maintenance of certain financial ratios and also, under certain conditions, restrict our ability to pay dividends, repurchase common shares and make other restricted payments as defined in those agreements.

Our cash flow from operations provides the primary source of funds for our debt service payments. If our cash flow from operations is adversely impacted, we may be unable to service or refinance our current debt.

Our inability to compete favorably in our highly competitive segment of the retail industry could negatively impact our results.

The sale of intimate and other apparel, personal care products and accessories is highly competitive. We compete for sales with a broad range of other retailers, including individual and chain specialty stores, department stores and discount retailers. In addition to the traditional store-based retailers, we also compete with direct marketers or retailers that sell similar lines of merchandise and who target customers through direct response channels. Brand image, marketing, design, price, service, quality, image presentation and fulfillment are all competitive factors in both the store-based and direct response channels.

Some of our competitors may have greater financial, marketing and other resources available. In many cases, our competitors sell their products in department stores that are located in the same shopping malls as our stores. In addition to competing for sales, we compete for favorable site locations and lease terms in shopping malls.

Increased competition could result in price reductions, increased marketing expenditures and loss of market share, any of which could have a material adverse effect on our results of operations and financial condition. The recent recessionary conditions have resulted in more significant competition and our competitors have lowered prices and engaged in more promotional activity.

Our inability to remain current with fashion trends and launch new product lines successfully could negatively impact the image and relevance of our brands.

Our success depends in part on management's ability to effectively anticipate and respond to changing fashion preferences and consumer demands and to translate market trends into appropriate, saleable product offerings far in advance of the actual time of sale to the customer. Customer demands and fashion trends change rapidly. If we are unable to successfully anticipate, identify or react to changing styles or trends or we misjudge the market for our products or any new product lines, our sales will be lower, potentially resulting in significant amounts of unsold finished goods inventory. In response, we may be forced to increase our marketing promotions or price markdowns, which could have a material adverse effect on our results of operations and financial condition. Our brand image may also suffer if customers believe merchandise misjudgments indicate we are no longer able to identify and offer the latest fashions.

[Table of Contents](#)

We may be unable to retain key personnel.

It is our belief we have benefited substantially from the leadership and experience of our senior executives, including Leslie H. Wexner (Chairman of the Board of Directors and Chief Executive Officer). The loss of the services of any of these individuals could have a material adverse effect on our business and prospects. Competition for key personnel in the retail industry is intense and our future success will also depend on our ability to recruit, train and retain other qualified key personnel.

We may be unable to attract, develop and retain qualified employees and manage labor costs.

We believe our competitive advantage is providing a positive, engaging and satisfying experience for each individual customer, which requires us to have highly trained and engaged employees. Our success depends in part upon our ability to attract, develop and retain a sufficient number of qualified employees, including store personnel and talented merchants. The turnover rate in the retail industry is generally high and qualified individuals of the requisite caliber and number needed to fill these positions may be in short supply in some areas. Competition for such qualified individuals or changes in labor and healthcare laws could require us to incur higher labor costs. Our inability to recruit a sufficient number of qualified individuals in the future may delay planned openings of new stores or affect the speed with which we expand. Delayed store openings, significant increases in employee turnover rates or significant increases in labor costs could have a material adverse effect on our results of operations and financial condition.

We rely significantly on foreign sources of production and maintenance of operations in foreign countries.

We purchase merchandise directly in foreign markets and in the domestic market. We do not have any material long-term merchandise supply contracts. Many of our imports are subject to a variety of customs regulations and international trade arrangements, including existing or potential duties, tariffs or safeguard quotas. We compete with other companies for production facilities.

We also face a variety of other risks generally associated with doing business in foreign markets and importing merchandise from abroad, such as:

- political instability;
- imposition of duties, taxes and other charges on imports;
- legal and regulatory matters;
- currency and exchange risks;
- local business practice and political issues (including issues relating to compliance with domestic or international labor standards) which may result in adverse publicity or threatened or actual adverse consumer actions, including boycotts;
- potential delays or disruptions in shipping and related pricing impacts;
- disruption of imports by labor disputes; and
- changing expectations regarding product safety due to new legislation.

New initiatives may be proposed impacting the trading status of certain countries and may include retaliatory duties or other trade sanctions which, if enacted, would limit or reduce the products purchased from suppliers in such countries.

[Table of Contents](#)

In addition, significant health hazards, environmental hazards or natural disasters may occur which could have a negative effect on the economies, financial markets and business activity. Our purchase of merchandise from these manufacturing operations may be affected by this risk.

Our future performance will depend upon these and the other factors listed above which are beyond our control and could have a material adverse effect on our results of operations and financial condition.

Our manufacturers may not be able to manufacture and deliver products in a timely manner and meet quality standards.

We purchase products through contract manufacturers and importers and directly from third-party manufacturers. Similar to most other specialty retailers, we have narrow sales window periods for much of our inventory. Factors outside our control, such as manufacturing or shipping delays or quality problems, could disrupt merchandise deliveries and result in lost sales, cancellation charges or excessive markdowns which could have a material adverse effect on our results of operations and financial condition.

Our results may be adversely affected by fluctuations in energy costs.

Energy costs have fluctuated dramatically in the past. These fluctuations may result in an increase in our transportation costs for distribution, utility costs for our retail stores and costs to purchase product from our manufacturers. A continual rise in energy costs could adversely affect consumer spending and demand for our products and increase our operating costs, both of which could have a material adverse effect on our results of operations and financial condition.

We may be adversely impacted by increases in costs of mailing, paper and printing.

Postal rate increases and paper and printing costs will affect the cost of our order fulfillment and catalogue and promotional mailings. We rely on discounts from the basic postal rate structure, such as discounts for bulk mailings and sorting. Future paper and postal rate increases could adversely impact our earnings if we are unable to pass such increases directly onto our customers or if we are unable to implement more efficient printing, mailing, delivery and order fulfillment systems.

We self-insure certain risks and may be adversely impacted by unfavorable claims experience.

We are self-insured for various types of insurable risks including associate medical benefits, workers' compensation, property, general liability and automobile up to certain stop-loss limits. Claims are difficult to predict and may be volatile. Any adverse claims experience could have a material adverse effect on our results of operations and financial condition.

We significantly rely on our ability to implement and sustain information technology systems.

Our success depends, in part, on the secure and uninterrupted performance of our information technology systems. Our computer systems, as well as those of our service providers, are vulnerable to damage from a variety of sources, including telecommunication failures, malicious human acts and natural disasters. Moreover, despite network security measures, some of our servers and those of our service providers are potentially vulnerable to physical or electronic break-ins, computer viruses and similar disruptive problems. Additionally, these types of problems could result in a breach of confidential customer information which could result in damage to our reputation and/or litigation. Despite the precautions we have taken, unanticipated problems may nevertheless cause failures in our information technology systems. Sustained or repeated system failures that interrupt our ability to process orders and deliver products to the stores in a timely manner or expose confidential customer information could have a material adverse effect on our results of operations and financial condition.

[Table of Contents](#)

In addition, we will make modifications and upgrades to the information technology systems for point-of-sale, e-commerce, merchandising, planning, sourcing, logistics, inventory management and support systems including human resources and finance. Modifications involve replacing legacy systems with successor systems, making changes to legacy systems or acquiring new systems with new functionality. We are aware of inherent risks associated with replacing these systems, including accurately capturing data and system disruptions. Information technology system disruptions, if not anticipated and appropriately mitigated, could have a material adverse effect on our operations.

We may fail to comply with regulatory requirements.

As a public company, we are subject to numerous regulatory requirements. Our policies, procedures and internal controls are designed to comply with all applicable laws and regulations, including those imposed by the Sarbanes-Oxley Act of 2002, the SEC and the New York Stock Exchange (the “NYSE”). Failure to comply with such laws and regulations could have an adverse effect on our reputation, market price of our common stock, results of operations and financial condition.

We may be adversely impacted by changes in taxation requirements.

We are subject to income tax in local, national and international jurisdictions. In addition, our products are subject to import and excise duties and/or sales or value-added taxes in many jurisdictions. Fluctuations in tax rates and duties and changes in tax legislation or regulation could have a material adverse effect on our results of operations and financial condition.

We may be adversely impacted by certain compliance or legal matters.

We are subject to complex compliance and litigation risks. Difficulty can exist in complying with sometimes conflicting regulations in local, national or international jurisdictions as well as new or changing regulations that affect how we operate. In addition, we may be impacted by litigation trends, including class action lawsuits involving consumers and shareholders that could have a material adverse effect on our reputation, market price of our common stock, results of operations and financial condition.

USE OF PROCEEDS

Our proceeds from the sale of notes are estimated to be \$389.5 million after the deduction of the underwriters' discounts and commissions and expenses of the offering. We intend to use the net proceeds of the offering, after deducting underwriting discounts and commission and estimated offering expenses, to fund offers to purchase up to \$400 million of our 6.125% senior notes due 2012 (the "2012 Notes") and our 5.250% senior notes due 2014 (the "2014 Notes"), for general corporate purposes, and for the repayment of other indebtedness. There can be no assurance that our offers to purchase our 2012 Notes and our 2014 Notes will be consummated. See "Summary—Tender Offers."

DESCRIPTION OF CERTAIN DEBT

The following descriptions are summaries of various material terms of certain indebtedness. They may not contain all the information that may be important to you. The following summaries are qualified in their entirety by reference to the relevant agreements and indentures to which each summary relates, copies of which are available upon request. Capitalized terms used but not defined in this section shall have the meanings set forth in the amended and restated revolving credit agreement dated as of March 8, 2010 (as amended and restated through the date hereof, the "Credit Agreement") among the Company, JPMorgan Chase Bank, N.A., as administrative agent and collateral agent, and the lenders party thereto."

Credit Facility

We currently have a \$926,666,667 secured revolving credit facility under our Credit Agreement (the "Revolving Facility"). In March 2010, we entered into an amendment and restatement (the "Amendment") of the Credit Agreement. Prior to the Amendment, the Revolving Facility had been in the amount of \$1,000,000,000 and expired on August 3, 2012. As a result of the Amendment, the amount of the Revolving Facility was reduced to \$926,666,667, the termination date of \$800,000,000 of the commitments under the Revolving Facility was extended from August 3, 2012 to August 1, 2014 (the "2014 Commitments") and the termination date of the remaining \$126,666,667 of commitments under the Revolving Facility remained August 3, 2012 (the "2012 Commitments"). The Amendment established two Classes of Commitments and Loans under the Credit Agreement, Class A Loans to be made by Lenders pursuant to the 2014 Commitments, and Class B Loans, to be made by pursuant to the 2012 Commitments.

The Revolving Facility supports our commercial paper and letter of credit programs. Fees and interest rates payable under the Revolving Facility are based on our long-term credit ratings and are currently 0.75% of the committed and unutilized amounts, 3.50% per year on outstanding letters of credit (which are available only under the 2014 Commitments) and LIBOR plus 3.50% or ABR plus 2.50% per year, in the case of loan outstanding under the 2014 Commitments, or LIBOR plus 4.00% or ABR plus 3.00% per year, in the case of loans outstanding under the 2012 Commitments. As of April 3, 2010 and as of January 30, 2010, there were no borrowings outstanding under the Revolving Facility. We had \$67 million of outstanding letters of credit as of April 3, 2010 and \$65 million of outstanding letters of credit as of January 30, 2010 that reduced our remaining availability under the 2014 Commitments. No commercial paper was outstanding as of April 3, 2010 and as of January 30, 2010.

Our obligations under the Credit Agreement (as well as any obligation of Limited Brands and any Guarantor (as defined below) in respect of hedging arrangements, cash management arrangements, open account agreements (subject to a cap) and certain existing letters of credit, in each case with lenders or their affiliates) (collectively, "Obligations") are guaranteed (the "Guarantees") by Limited Brands' existing and future Material Subsidiaries (the "Guarantors"). The Obligations are secured by security interests in existing and future tangible and intangible personal property of Limited Brands and the Guarantors, except to the extent prohibited by Limited Brands' existing indentures and subject to additional exceptions for certain specified types of property and in certain specified circumstances. The Guarantees and security interests shall be released if Limited Brands' issuer credit rating (by S&P) and corporate family rating (by Moody's) is BBB+ and Baa1 or better (if rated by both S&P and Moody's) or BBB+ or Baa1 or better (if rated by one credit rating agency only) and no Default shall have occurred and be continuing or would result from such release. The Guarantees and security interests are subject to reinstatement if Limited Brands' issuer credit rating (by S&P) and corporate family rating (by Moody's) is worse than BBB or Baa2 (if rated by both S&P and Moody's) or BBB or Baa2 (if rated by one credit rating agency). The Guarantee and security interest of a Guarantor may also be released where such Guarantor ceases to be a consolidated subsidiary of the Company pursuant to a transaction permitted under the Credit Agreement.

The Credit Agreement contains various covenants including those that require Limited Brands to maintain certain specified fixed charge coverage and leverage ratios and prohibit certain types of liens on property or assets. We are required to maintain the fixed charge coverage ratio at 1.60 or above for the four

consecutive fiscal quarters ending prior to the fiscal quarter ending on our about January 31, 2011 and 1.75 or above thereafter. The leverage ratio, which is debt compared to Consolidated EBITDA, as those terms are defined in the agreement, must not exceed 5.0 through the third quarter of fiscal year 2010, 4.5 from the fourth quarter of fiscal year 2010 through the third quarter of fiscal year 2011 and 4.0 thereafter. The Credit Agreement, after giving effect to the Amendment, includes covenants that (a) limit Limited Brands and the Guarantors' new investments in, and new guarantees of indebtedness for the benefit of, non-Guarantor subsidiaries, subject to limited exceptions, to \$100 million (which investment covenant shall not apply if Limited Brands' issuer credit rating (by S&P) and corporate family rating (by Moody's) is BBB+ and Baa1 or better (if rated by both S&P and Moody's) or BBB+ or Baa1 or better (if rated by only one credit rating agency) and no Default shall have occurred), (b) restrict, with certain exceptions, entering additional agreements or instruments that impose restrictions on the granting of liens by Limited Brands or a domestic subsidiary to secure, or the ability of any domestic subsidiary to guarantee, the Obligations (or obligations under any facility that refinances or replaces the Amendments), (c) limit Restricted Payments to distributions by wholly-owned consolidated subsidiaries, ratable dividends by consolidated subsidiaries, restricted payments by Limited Brands not exceeding \$220 million in any fiscal year (unless otherwise permitted) (which restricted payment covenant shall not apply if Limited Brands' issuer credit rating (by S&P) and corporate family rating (by Moody's) is BBB and Baa2 or better (if rated by both S&P and Moody's) or BBB or Baa2 or better (if rated by one credit rating agency only)), and (d) require that the aggregate principal amount of Loans outstanding under the Revolving Credit Agreement shall not exceed \$200 million for a period of thirty consecutive days between January 15 and February 28 of each calendar year; provided that the limitations on investments in, and guarantees of indebtedness of non-Guarantor subsidiaries and on Restricted Payments shall not apply to investments, guarantees and Restricted Payments if, at the time of and after giving effect to such investment, guarantee or Restricted Payment (i) the ratio of Consolidated Debt to Consolidated EBITDA for the most recent four quarter period is less than 3.0 to 1.0 and (ii) no Default or Event of Default exists.

As a condition to the effectiveness of the Amendment, on March 8, 2010, the Company repaid all remaining outstanding obligations accrued and owing under the amended and restated term loan credit agreement, dated as of February 19, 2009 among the Company, JPMorgan Chase Bank, N.A., as administrative agent, and the lenders party thereto (the "Term Loan"), which amounted to approximately \$200,000,000 and terminated the Term Loan.

Other Existing Debt

In June 2009, Limited Brands issued \$500 million of 8.50% senior notes due June 15, 2019. Interest on the notes is payable on June 15 and December 15 of each year. In addition, one of our subsidiaries that is not a guarantor of the notes offered hereby has a 5.30% mortgage due August 2010 in the amount of approximately \$2 million. In July 2007, Limited Brands issued \$700 million of 6.90% notes due July 2017 and \$300 million of 7.60% notes due July 15, 2037 utilizing a shelf registration statement under which up to \$1 billion of debt securities, common and preferred stock and other securities could be issued. Interest on the notes is payable on January 15 and July 15 of each year. Other outstanding notes of Limited Brands include \$500 million of 5.25% notes due November 2014, \$350 million of 6.95% notes due March 2033 and \$191 million of 6.125% notes due December 2012.

DESCRIPTION OF THE NOTES

As used below, the terms “we,” “us,” “our” and “Limited Brands” refer only to Limited Brands, Inc. and not to any of its Subsidiaries. The definitions of certain capitalized terms used in this description are set forth below under “—Certain Definitions.” Capitalized terms used but not defined in this section shall have the meanings set forth in the Indenture.

General

The following is a summary of the terms of the Indenture and the Notes. The Notes will be issued under an indenture (“the Indenture”) dated as of March 15, 1988 between us and The Bank of New York, as trustee, as amended by a supplemental indenture, dated as of May 31, 2005, among us, The Bank of New York, as resigning trustee, and The Bank of New York Trust Company, N.A., as successor trustee, as further amended by the second supplemental indenture, dated as of July 17, 2007 between us and The Bank of New York Trust Company, N.A., as trustee, and as further amended by the third supplemental indenture, dated as of the Issue Date between us, the Subsidiary Guarantors and The Bank of New York Mellon Trust Company, N.A., as Trustee (the “Trustee”). The Indenture will be subject to and governed by the Trust Indenture Act of 1939, as amended (the “TIA”). The terms of the Notes include those stated in the Indenture and those made part of the Indenture by reference to the TIA. The following is a summary of the material terms and provisions of the Notes and the Indenture. However, this summary does not purport to be a complete description of the Notes or the Indenture and is subject to the detailed provisions of, and qualified in its entirety by reference to, the Indenture, a copy of which is available from the Company upon request. We urge you to read the Indenture carefully because it, and not the following description, will govern your rights as a holder of the Notes.

Maturity, interest, form and denomination

The Notes are being issued in an original aggregate principal amount of \$400,000,000. The Notes will mature on May 1, 2020 and will bear interest at the rate of 7% per year.

Interest will be payable semiannually in arrears on May 1 and November 1 of each year commencing on November 1, 2010 to holders of record of the Notes on the preceding April 15 and October 15, respectively. If an interest payment date falls on a day that is not a business day, interest will be payable on the next succeeding business day with the same force and effect as if made on such interest payment date. Interest on the Notes will be calculated on the basis of a 360-day year of twelve 30-day months.

The Notes will be issued in fully registered form in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. The registered holder of a Note will be treated as the owner of such Note for all purposes of the Indenture.

Further issuances of the notes

We may, from time to time, without the consent of the existing holders of the Notes, issue additional notes (“Additional Notes”) under the Indenture having the same terms as the Notes in all respects, except for the issue date, the issue price and the initial interest payment date. Any such Additional Notes will be consolidated with and form a single series with the Notes offered hereby for all purposes of the Indenture.

Ranking

The Notes will be our senior unsecured obligations and:

- will rank equally with all our other senior unsecured indebtedness from time to time outstanding;
- will rank senior to any of our future indebtedness, if any, from time to time outstanding that is expressly subordinated to the Notes;

Table of Contents

- will rank effectively junior to all of our secured indebtedness, if any, from time to time outstanding, including our indebtedness under our Senior Credit Facility, in each case, to the extent of the value of the collateral securing such indebtedness;
- will rank effectively junior to all indebtedness and liabilities of our Subsidiaries that are not Subsidiary Guarantors to the extent of the value of such Subsidiaries;
- will be guaranteed by the Subsidiary Guarantors on a senior unsecured basis as described below under “Subsidiary guarantees”; and
- will rank effectively senior to any series of our existing and future unsecured debt securities that are not guaranteed by our subsidiaries to the extent of the value of the assets of the guarantors.

Each Subsidiary Guarantee will be the senior unsecured obligation of the applicable Subsidiary Guarantor and:

- will rank equally with all other senior unsecured indebtedness of such Subsidiary Guarantor from time to time outstanding;
- will rank senior to any future indebtedness, if any, of such Subsidiary Guarantor from time to time outstanding that is expressly subordinated to such Subsidiary Guarantor’s Subsidiary Guarantee; and
- will rank effectively junior to all of such Subsidiary Guarantor’s secured indebtedness, if any, from time to time outstanding, including such Subsidiary Guarantor’s guarantee of indebtedness under our Senior Credit Facility, in each case, to the extent of the value of the collateral of such Subsidiary Guarantor securing such indebtedness.

The guarantors represent (i) substantially all of the revenue of our domestic subsidiaries, (ii) more than 90% of the assets owned by our domestic subsidiaries, other than real property, aircraft and intercompany investments and (iii) more than 95% of the accounts receivable and inventory directly owned by our domestic subsidiaries.

Subsidiary guarantees

The Notes will be guaranteed (each such guarantee being referred to as a “Subsidiary Guarantee”), on a joint and several senior unsecured basis, on the Issue Date by each of our Domestic Subsidiaries that is a guarantor of our Senior Credit Facility (each such Subsidiary being referred to as a “Subsidiary Guarantor”). On the Issue Date, the Subsidiary Guarantors will consist of the following Subsidiaries: Bath & Body Works Brand Management, Inc., Bath & Body Works, LLC, beautyAvenues, Inc., Intimate Brands, Inc., Limited Brands Direct Fulfillment, Inc., Limited Service Corporation, Limited Store Planning, Inc., Mast Industries, Inc., Victoria’s Secret Direct Brand Management, LLC, Victoria’s Secret Stores Brand Management, Inc. and Victoria’s Secret Stores, LLC. Following the Issue Date, additional Domestic Subsidiaries will be required to become Subsidiary Guarantors to the extent set forth below under “—Additional subsidiary guarantees.” The obligations of a Subsidiary Guarantor under its Subsidiary Guarantee will be limited to the extent necessary to prevent the obligations of such Subsidiary Guarantor under its Subsidiary Guarantee from constituting a fraudulent conveyance or fraudulent transfer under federal or state law.

The Indenture provides that the Subsidiary Guarantee of a Subsidiary Guarantor will be automatically and unconditionally released:

(a) in the event of a sale or other transfer of Equity Interests in such Subsidiary Guarantor or dissolution of such Subsidiary Guarantor in compliance with the terms of the Indenture following which such Subsidiary Guarantor ceases to be a Consolidated Subsidiary;

[Table of Contents](#)

(b) upon such Subsidiary Guarantor ceasing to be a borrower or guarantor under any Senior Credit Facility; or

(c) in connection with a satisfaction and discharge, Covenant Defeasance or Legal Defeasance of the Indenture in accordance with the provisions described below.

Optional redemption

Make-whole redemption

The Notes will be redeemable in whole or in part, at our option, at any time and from time to time at a redemption price equal to the greater of (1) 100% of the principal amount of the Notes to be redeemed and (2) the sum of the present values of the remaining scheduled payments of principal and interest thereon to maturity discounted to the redemption date on a semiannual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate, plus 50 basis points, plus accrued interest thereon to the date of redemption.

Redemption from proceeds of qualified equity offerings

Prior to May 1, 2013 we may, with the net proceeds of one or more Qualified Equity Offerings, redeem up to 35% of the aggregate principal amount at maturity of the outstanding Notes (including Additional Notes) at a redemption price equal to 107% of the principal amount thereof, plus accrued and unpaid interest thereon, if any, to, but not including, the applicable redemption date; provided that at least 65% of the principal amount at maturity of Notes issued under the Indenture (including Additional Notes) remains outstanding immediately after the occurrence of any such redemption (excluding Notes held by us or our Subsidiaries) and that any such redemption occurs within 90 days following the closing of any such Qualified Equity Offering.

Notice of any redemption will be mailed at least 30 days but not more than 60 days before the redemption date to each holder of Notes to be redeemed.

Unless we default in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the Notes or portions thereof called for redemption.

Change of control

If a Change of Control Triggering Event occurs, unless we have exercised our right to redeem the Notes as described above, holders of Notes will have the right to require us to repurchase all or any part in an integral multiple of \$1,000 of their Notes (provided that no Note will be purchased in part if the remaining principal amount of such Note would be less than \$2,000) pursuant to the offer described below (the "Change of Control Offer") on the terms set forth in the Indenture. In the Change of Control Offer, we will be required to offer payment in cash equal to 101% of the aggregate principal amount of Notes repurchased plus accrued and unpaid interest, if any, on the Notes repurchased, to the date of purchase (the "Change of Control Payment"). Within 30 days following any Change of Control Triggering Event, or, at our option, prior to any Change of Control, but after the public announcement of the Change of Control, we will be required to mail a notice to holders of Notes describing the transaction or transactions that constitute or may constitute the Change of Control Triggering Event and offering to repurchase the Notes on the date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed (the "Change of Control Payment Date"), pursuant to the procedures required by the Indenture and described in such notice. The notice shall, if mailed prior to the date of consummation of the Change of Control, state that the offer to purchase is conditioned on the Change of Control Triggering Event occurring on or prior to the payment date specified in the notice. We must comply with the requirements of Rule 14e-1 under the Securities Exchange Act of 1934, as amended (the "Exchange Act") and any other securities laws and regulations thereunder to the extent those laws and

Table of Contents

regulations are applicable in connection with the repurchase of the Notes as a result of a Change of Control Triggering Event. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control provisions of the Indenture, we will be required to comply with the applicable securities laws and regulations and will not be deemed to have breached our obligations under the Change of Control provisions of the Indenture by virtue of such conflicts.

On the Change of Control Payment Date, we will be required, to the extent lawful, to:

- accept for payment all Notes or portions of Notes properly tendered pursuant to the Change of Control Offer;
- deposit with the paying agent an amount equal to the Change of Control Payment in respect of all Notes or portions of Notes properly tendered; and
- deliver or cause to be delivered to the Trustee the Notes properly accepted together with an officers' certificate stating the aggregate principal amount of Notes or portions of Notes being purchased.

The definition of Change of Control includes the occurrence of a direct or indirect sale, transfer, conveyance or other disposition (other than by way of a merger or consolidation) of "all or substantially all" of the properties or assets of Limited Brands and its Subsidiaries taken as a whole. See "—Certain Definitions—Change of Control." Although there is a limited body of case law interpreting the phrase "substantially all," there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of Notes to require Limited Brands to repurchase its Notes as a result of a sale, transfer, conveyance or other disposition of less than all of the assets of Limited Brands and its Subsidiaries taken as a whole to another Person or group may be uncertain.

Limitations on liens

We have agreed under the Indenture that we will not, and will not permit any Subsidiary to, incur, issue, assume or guarantee any indebtedness for money borrowed if such indebtedness is secured by a pledge of, lien on or security interest in any shares of Voting Stock of any Significant Subsidiary, whether such Voting Stock is now owned or is hereafter acquired, without providing that the Notes (together with, if we shall so determine, any other indebtedness or obligations of Limited Brands, Inc. or any Subsidiary ranking equally with the Notes and then existing or thereafter created) shall be secured equally and ratably with such indebtedness. The foregoing limitation shall not apply to indebtedness secured by a pledge of, lien on or security interest in any shares of Voting Stock of any corporation at the time it becomes a Significant Subsidiary.

Additional subsidiary guarantees

If, after the Issue Date, any of our Domestic Subsidiaries becomes a borrower or guarantor under the Senior Credit Facility, then, in each such case, we will be required to cause such Domestic Subsidiary to:

- (a) execute and deliver to the Trustee a supplemental indenture pursuant to which such Domestic Subsidiary shall unconditionally guarantee all of our obligations under the Notes and the Indenture; and
- (b) deliver to the Trustee one or more opinions of counsel that, subject to customary qualifications, such supplemental indenture (a) has been duly authorized, executed and delivered by such Subsidiary and (b) constitutes a valid and legally binding obligation of such Subsidiary in accordance with its terms.

Limitations on mergers and sales of assets

We have agreed under the Indenture not to consolidate with or merge into another corporation, or sell other than for cash or lease all or substantially all our assets to another corporation, or purchase all or substantially all the assets of another corporation, unless:

- either Limited Brands, Inc. is the continuing corporation or the successor corporation (if other than Limited Brands, Inc.) expressly assumes by supplemental indenture the obligations of the Notes (in which case, except in the case of such a lease, we will be discharged from these obligations); and
- immediately after the merger, consolidation, sale or lease, no Default shall have occurred and be continuing.

Reports

Whether or not required by the rules and regulations of the SEC, so long as any Notes are outstanding, the Indenture will provide that we will file with the SEC (unless the SEC will not accept such filings) and furnish to the holders of Notes all quarterly and annual financial information, and on dates, that would be required to be contained in a filing with the SEC on Forms 10-Q and 10-K if the Notes were registered under the Exchange Act.

Defaults

The Indenture provides that each of the following will constitute an “Event of Default”:

- default for 30 days in payment of interest upon any Note;
- default in payment of principal or premium, if any, on any Note;
- default, for 90 days after notice, in the performance of any other covenant in the Indenture; and
- certain events of bankruptcy or insolvency.

If an Event of Default should occur and be continuing, either the Trustee or the holders of 25% in aggregate principal amount of the Notes then outstanding may declare the Notes due and payable. Holders of a majority in aggregate principal amount of the Notes then outstanding will be entitled to control certain actions of the Trustee under the Indenture and to waive past Defaults. Subject to the provisions of the Indenture relating to the duties of the Trustee, the Trustee will not be under any obligation to exercise any of the rights or powers vested in it by the Indenture at the request, order or direction of any of the holders of Notes, unless one or more of such holders of Notes shall have offered to the Trustee reasonable security or indemnity.

If an Event of Default occurs and is continuing, any sums held or received by the Trustee under the Indenture may be applied to reimburse the Trustee for its reasonable compensation and expenses incurred prior to any payments to holders of the Notes.

The right of any holder of Notes to institute an action for any remedy (except such holder’s right to enforce payment of the principal of, and premium, if any, and interest on such holder’s Note when due) will be subject to certain conditions precedent, including a written notice to the Trustee by such holder of the occurrence of one or more Events of Default, a request to the Trustee by the holders of not less than 25% in aggregate principal amount of the Notes then outstanding to take action and an offer satisfactory to the Trustee of security and indemnity against liabilities incurred by it in so doing.

Satisfaction and discharge

The Indenture and the guarantees will be discharged and will cease to be of further effect as to all outstanding Notes when either:

(a) all the Notes that have been authenticated and delivered (except lost, stolen or destroyed Notes which have been replaced or paid and Notes for whose payment money has been deposited in trust or segregated and held in trust by us and thereafter repaid to us or discharged from this trust) have been delivered to the Trustee for cancellation, or

(b) all Notes not delivered to the Trustee for cancellation otherwise (x) have become due and payable, (y) will become due and payable, or may be called for redemption, within one year or (z) have been called for redemption pursuant to the provisions described under “—Optional redemption,” and, in any case, the Issuer has irrevocably deposited or caused to be deposited with the Trustee as trust funds, in trust solely for the benefit of the holders of Notes, U.S. legal tender, U.S. government obligations or a combination thereof, in such amounts as will be sufficient (without consideration of any reinvestment of interest) to pay and discharge the entire indebtedness (including all principal and accrued interest) on the Notes not theretofore delivered to the Trustee for cancellation,

(c) we have paid all other sums payable by us under the Indenture, and

(d) we have delivered irrevocable instructions to the Trustee to apply the deposited money toward the payment of the Notes at maturity or on the date of redemption, as the case may be.

Legal defeasance and covenant defeasance

We may, at our option and at any time, elect to have our obligations and the obligations of the Subsidiary Guarantors discharged with respect to the outstanding Notes (“Legal Defeasance”). Legal Defeasance means that we and the Subsidiary Guarantors shall be deemed to have paid and discharged the entire indebtedness represented by the Notes and the Subsidiary Guarantees, and the Indenture shall cease to be of further effect as to all outstanding Notes and Subsidiary Guarantees, except as to:

(a) rights of holders to receive payments in respect of the principal of and interest on the Notes when such payments are due from the trust funds referred to below,

(b) our obligations with respect to the Notes concerning issuing temporary Notes, registration of Notes, mutilated, destroyed, lost or stolen Notes, and the maintenance of an office or agency for payment and money for security payments held in trust,

(c) the rights, powers, trust, duties, and immunities of the Trustee, and our obligations in connection therewith, and

(d) the Legal Defeasance provisions of the Indenture.

In addition, we may, at our option and at any time, elect to have our obligations and the obligations of the Subsidiary Guarantors released with respect to most of the covenants under the Indenture, except as described otherwise in the Indenture (“Covenant Defeasance”), and thereafter any omission to comply with such obligations shall not constitute a Default. In the event Covenant Defeasance occurs, certain Events of Default (not including non-payment and bankruptcy events) will no longer apply. Covenant Defeasance will not be effective until such bankruptcy events no longer apply. We may exercise our Legal Defeasance option regardless of whether we have previously exercised Covenant Defeasance.

Table of Contents

In order to exercise either Legal Defeasance or Covenant Defeasance:

(a) we must irrevocably deposit with the Trustee, as trust funds, in trust solely for the benefit of the holders, U.S. legal tender, U.S. government obligations or a combination thereof, in such amounts as will be sufficient (without consideration of any reinvestment of interest) in the opinion of a nationally recognized firm of independent public accountants selected by us, to pay the principal of and interest on the Notes on the stated date for payment or on the redemption date of the principal or installment of principal of or interest on the Notes,

(b) in the case of Legal Defeasance, we shall have delivered to the Trustee an opinion of counsel in the United States confirming that:

(i) we have received from, or there has been published by the Internal Revenue Service, a ruling, or

(ii) since the Issue Date, there has been a change in the applicable U.S. federal income tax law,

in either case to the effect that, and based thereon this opinion of counsel shall confirm that, the holders of Notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the Legal Defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred,

(c) in the case of Covenant Defeasance, we shall have delivered to the Trustee an opinion of counsel in the United States confirming that the holders of the Notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such Covenant Defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the Covenant Defeasance had not occurred,

(d) no Default shall have occurred and be continuing on the date of such deposit,

(e) the Legal Defeasance or Covenant Defeasance shall not result in a breach or violation of, or constitute a Default under the Indenture or a default under any other material agreement or instrument to which the we or any of our Subsidiaries is a party or by which we or any of our Subsidiaries is bound,

(f) we shall have delivered to the Trustee an officers' certificate stating that the deposit was not made by it with the intent of preferring the holders of Notes over any other of our creditors or with the intent of defeating, hindering, delaying or defrauding any other of our creditors or others, and

(g) we shall have delivered to the Trustee an officers' certificate and an opinion of counsel, each stating that the conditions provided for in, in the case of the officers' certificate, clauses (a) through (f) and, in the case of the opinion of counsel, clauses (b) and/or (c) and (e) of this paragraph have been complied with.

If the funds deposited with the Trustee to effect Covenant Defeasance are insufficient to pay the principal of and interest on the Notes when due, then our obligations and the obligations of the Subsidiary Guarantors under the Indenture will be revived and no such defeasance will be deemed to have occurred.

Modification of the indenture

The Indenture contains provisions permitting us and the Trustee, without the consent of the holders of Notes, to, among other things, issue Additional Notes under the Indenture, comply with the terms of the TIA, make changes that are not adverse to the holders of Notes and add additional Subsidiary Guarantors (or release additional Subsidiary Guarantors from their Subsidiary Guarantees in accordance with the Indenture) by one or

more supplemental indentures and, with the consent of the holders of not less than a majority in aggregate principal amount of the Notes at the time outstanding, to modify the Indenture or any supplemental Indenture or the rights of the holders of the Notes; provided that no such modification will:

- extend the fixed maturity of any debt securities, reduce the rate or extend the time of payment of interest thereon, reduce the principal amount thereof or the premium, if any, thereon, reduce the amount of the principal payable on any date, change the coin or currency in which principal of or any premium or interest on any Notes are payable, release all or substantially all of the Subsidiary Guarantors from their Subsidiary Guarantees (other than in accordance with the Indenture) or impair the right to institute suit for the enforcement of any such payment on or after the maturity thereof, without the consent of the holder of each Note, or
- reduce the aforesaid percentage of Notes, the consent of the holders of which is required for any such modification without the consent of the holders of all Notes then outstanding, or
- modify without the written consent of the Trustee the rights, duties or immunities of the Trustee.

Concerning the trustee

The Trustee has loaned money to us and provided other services to us in the past and may do so in the future as a part of its regular business. We will be required to file annually with the Trustee a statement of an officer as to the fulfillment of our obligations under the Indenture during the preceding year.

Certain definitions

“Below Investment Grade Rating Event” means the Notes are rated below an Investment Grade Rating by both of the Rating Agencies (as defined below) on any date from the date of the public notice of an arrangement that could result in a Change of Control until the end of the 60-day period following public notice of the occurrence of the Change of Control (which 60-day period shall be extended so long as the rating of the Notes is under publicly announced consideration for possible downgrade by any of the Rating Agencies (the “Relevant Period”)); provided that a Below Investment Grade Rating Event otherwise arising by virtue of a particular reduction in rating shall not be deemed to have occurred in respect of a particular Change of Control (and thus shall not be deemed a Below Investment Grade Rating Event for purposes of the definition of Change of Control Triggering Event) if the Rating Agencies making the reduction in rating to which this definition would otherwise apply either (i) did not reduce the ratings of the Notes during the Relevant Period or (ii) do not announce or publicly confirm that the reduction was the result, in whole or in part, of any event or circumstance comprised of or arising as a result of, or in respect of, the applicable Change of Control (whether or not the applicable Change of Control shall have occurred at the time of the Below Investment Grade Rating Event).

“Change of Control” means the occurrence of any of the following: (1) the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of the properties or assets of Limited Brands and its Subsidiaries taken as a whole to any “Person” (as that term is used in Section 13(d)(3) of the Exchange Act) other than Limited Brands or one of its Subsidiaries; (2) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any “Person” (as that term is used in Section 13(d)(3) of the Exchange Act) becomes the beneficial owner, directly or indirectly, of more than 50% of the then outstanding number of shares of Limited Brands’ voting stock; or (3) the first day on which a majority of the members of Limited Brands’ Board of Directors are not Continuing Directors. Notwithstanding the foregoing, a transaction will not be deemed to involve a Change of Control if (1) we become a wholly owned Subsidiary of a holding company that has agreed to be bound by the terms of the Notes and (2) the holders of the voting stock of such holding company immediately following that transaction are substantially the same as the holders of our voting stock immediately prior to that transaction.

BOOK-ENTRY, DELIVERY AND FORM

The notes initially will be represented by one or more permanent global certificates in definitive, fully registered form (the “Global Notes”). The Global Notes will be deposited upon issuance with The Depository Trust Company, New York, New York (“DTC”), and registered in the name of a nominee of DTC in the form of a global certificate.

The Global notes

DTC has advised us that pursuant to procedures established by it (i) upon the issuance of the Global Notes, DTC or its custodian will credit, on its internal system, the principal amount at maturity of the individual beneficial interests represented by such Global Notes to the respective accounts of persons who have accounts with such depository and (ii) ownership of beneficial interests in the Global Notes will be shown on, and the transfer of such ownership will be effected only through, records maintained by DTC or its nominee (with respect to interests of participants) and the records of participants (with respect to interests of persons other than participants). Ownership of beneficial interests in the Global Notes will be limited to persons who have accounts with DTC (“participants”) or persons who hold interests through participants. Holders may hold their interests in the Global Notes directly through DTC if they are participants in such system, or indirectly through organizations that are participants in such system.

So long as DTC, or its nominee, is the registered owner or holder of the notes, DTC or such nominee, as the case may be, will be considered the sole owner or holder of the notes represented by such Global Notes for all purposes under the indenture governing the notes. No beneficial owner of an interest in the Global Notes will be able to transfer that interest except in accordance with DTC’s procedures, in addition to those provided for under the indenture with respect to the notes.

Payments of the principal of, premium, if any, and interest (including additional interest) on, the Global Notes will be made to DTC or its nominee, as the case may be, as the registered owner of the Global Notes. None of the Company, the trustee or any paying agent under the indenture governing the notes will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interest.

DTC has advised us that its present practice is, upon receipt of any payment of principal, premium, if any, and interest (including additional interest) on the Global Notes, to credit immediately participants’ accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the Global Notes as shown on the records of DTC. Payments by participants to owners of beneficial interests in the Global Notes held through such participants will be governed by standing instructions and customary practice, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

Transfers between participants in DTC will be effected in the ordinary way through DTC’s same-day funds system in accordance with DTC rules and will be settled in same-day funds. If a holder requires physical delivery of a certificated security for any reason, including to sell notes to persons in states which require physical delivery of the notes, or to pledge such securities, such holder must transfer its interest in a Global Note in accordance with the normal procedures of DTC and with the procedures set forth in the indenture governing the notes.

DTC has advised us that it will take any action permitted to be taken by a holder of notes, including the presentation of notes for exchange as described below, only at the direction of one or more participants to whose account the DTC interests in the Global Notes are credited and only in respect of such portion of the aggregate principal amount of notes as to which such participant or participants has or have given such direction. However,

[Table of Contents](#)

if there is an event of default under the indenture governing the notes, DTC will exchange the Global Notes for certificated securities, which it will distribute to its participants.

DTC has advised us as follows: DTC is a limited purpose trust company organized under the laws of the State of New York, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the Uniform Commercial Code and a “Clearing Agency” registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participants and facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes in accounts of its participants, thereby eliminating the need for physical movement of certificates. Participants include securities brokers and dealers, banks, trust companies and clearing corporations and certain other organizations. Indirect access to the DTC system is available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly (“indirect participants”).

Although DTC has agreed to the foregoing procedures in order to facilitate transfers of interests in the Global Note among participants of DTC, it is under no obligation to perform such procedures, and such procedures may be discontinued at any time. Neither we nor the trustee will have any responsibility for the performance by DTC or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Clearstream. Clearstream is incorporated under the laws of Luxembourg as a professional depository. Clearstream holds securities for its participating organizations (“Clearstream Participants”) and facilitates the clearance and settlement of securities transactions between Clearstream Participants through electronic book-entry changes in accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates. Clearstream provides Clearstream Participants with, among other things, services for safekeeping, administration, clearance and establishment of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. As a professional depository, Clearstream is subject to regulation by the Luxembourg Monetary Institute. Clearstream Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, and may include the underwriters. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream Participant either directly or indirectly.

Distributions with respect to notes held beneficially through Clearstream will be credited to cash accounts of Clearstream Participants in accordance with its rules and procedures to the extent received by DTC for Clearstream.

Euroclear. Euroclear was created in 1968 to hold securities for participants of Euroclear (“Euroclear Participants”) and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several markets in several countries. Euroclear is operated by Euroclear Bank S.A./N.V. (the “Euroclear Operator”), under contract with Euroclear Clearance Systems S.C., a Belgian cooperative corporation (the “Cooperative”). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

The Euroclear Operator is regulated and examined by the Belgian Banking Commission.

[Table of Contents](#)

Links have been established among DTC, Clearstream and Euroclear to facilitate the initial issuance of the notes sold outside of the United States and cross-market transfers of the notes associated with secondary market trading.

Although DTC, Clearstream and Euroclear have agreed to the procedures provided below in order to facilitate transfers, they are under no obligation to perform these procedures, and these procedures may be modified or discontinued at any time.

Clearstream and Euroclear will record the ownership interests of their participants in much the same way as DTC, and DTC will record the total ownership of each of the U.S. agents of Clearstream and Euroclear, as participants in DTC. When notes are to be transferred from the account of a DTC participant to the account of a Clearstream participant or a Euroclear participant, the purchaser must send instructions to Clearstream or Euroclear through a participant at least one day prior to settlement. Clearstream or Euroclear, as the case may be, will instruct its U.S. agent to receive notes against payment. After settlement, Clearstream or Euroclear will credit its participant's account. Credit for the notes will appear on the next day (European time).

Because settlement is taking place during New York business hours, DTC participants will be able to employ their usual procedures for sending notes to the relevant U.S. agent acting for the benefit of Clearstream or Euroclear participants. The sale proceeds will be available to the DTC seller on the settlement date. As a result, to the DTC participant, a cross-market transaction will settle no differently than a trade between two DTC participants.

When a Clearstream or Euroclear participant wishes to transfer notes to a DTC participant, the seller will be required to send instructions to Clearstream or Euroclear through a participant at least one business day prior to settlement. In these cases, Clearstream or Euroclear will instruct its U.S. agent to transfer these notes against payment for them. The payment will then be reflected in the account of the Clearstream or Euroclear participant the following day, with the proceeds back valued to the value date, which would be the preceding day, when settlement occurs in New York. If settlement is not completed on the intended value date, that is, the trade fails, proceeds credited to the Clearstream or Euroclear participant's account will instead be valued as of the actual settlement date.

You should be aware that you will only be able to make and receive deliveries, payments and other communications involving the notes through Clearstream and Euroclear on the days when those clearing systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States. In addition, because of time zone differences there may be problems with completing transactions involving Clearstream and Euroclear on the same business day as in the United States.

Certificated Securities

A Global Note is exchangeable for certificated securities if:

- DTC (i) notifies us that it is unwilling or unable to continue as depository for the Global Notes or (ii) has ceased to be a Clearing Agency registered under the Exchange Act and, in either case, a successor depository is not appointed by us within 120 days; or
- we, at our option, notify the trustee in writing that we elect to cause the issuance of the notes in certificated form.

In addition, beneficial interests in a Global Note may be exchanged for certificated securities upon prior written notice given to the trustee by or on behalf of DTC in accordance with the indenture governing the notes. In all cases, certificated securities delivered in exchange for any Global Note or beneficial interests in Global Notes will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depository (in accordance with its customary procedures).

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a discussion of certain U.S. federal income tax consequences of ownership and disposition of the notes. This discussion applies only to notes that are:

- purchased by those initial holders who purchase notes at the “issue price,” which will equal the first price at which a substantial amount of the notes is sold for money to investors (not including bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers); and
- held as capital assets.

This discussion does not describe all of the tax consequences that may be relevant to holders in light of their particular circumstances or to holders subject to special rules, such as:

- financial institutions;
- insurance companies;
- dealers in securities;
- persons holding notes as part of a hedge, “straddle,” integrated transaction;
- U.S. Holders (as defined below) whose functional currency is not the U.S. dollar;
- partnerships or other entities classified as partnerships for U.S. federal income tax purposes (or investors in such entities);
- U.S. expatriates;
- tax-exempt organizations; or
- persons subject to the alternative minimum tax.

If an entity that is classified as a partnership for U.S. federal income tax purposes holds notes, the U.S. federal income tax treatment of a partner will generally depend on the status of the partner and upon the activities of the partnership. Partnerships holding notes and partners in such partnerships should consult their own tax advisors as to the particular U.S. federal income tax consequences of holding and disposing of the notes.

This summary is based on the Code, administrative pronouncements, judicial decisions and final, temporary and proposed Treasury Regulations as of the date hereof, changes to any of which may affect the tax consequences described herein (possibly with retroactive effect). Persons considering the purchase of notes are urged to consult their tax advisors with regard to the application of the U.S. federal income or other tax laws (including estate and gift tax laws and the newly enacted Medicare tax on investment income) to their particular situations as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.

Potential contingent payment debt treatment

Our obligation to pay additional amounts on the notes in excess of the accrued interest and principal (for example, in connection with a Change of Control Triggering Event) may implicate the provisions of the Treasury Regulations relating to “contingent payment debt instruments.” Under these Treasury Regulations, one or more contingencies will not cause a debt instrument to be treated as a contingent payment debt instrument if, based on

[Table of Contents](#)

all the facts and circumstances as of the issue date, it is significantly more likely than not that such contingencies will not occur. We intend to take the position that the notes should not be treated as contingent payment debt instruments and this discussion generally assumes that the regulations relating to “contingent payment debt instruments” are not applicable. However, we can give you no assurance that our position would be sustained if challenged by the Internal Revenue Service (the “IRS”). A successful challenge of this position by the IRS could affect the timing and amount of a holder’s income and could cause the gain from the sale or other disposition of a note to be treated as ordinary income, rather than capital gain. Our position regarding the applicability of the regulations relating to “contingent payment debt instruments” is binding on a holder unless the holder discloses in a proper manner to the IRS that it is taking a different position. U.S. Holders are urged to consult their tax advisors regarding the possible application of the contingent payment debt instrument rules to the notes.

Tax consequences to U.S. Holders

As used herein, the term “U.S. Holder” means a beneficial owner of a note that is for U.S. federal income tax purposes:

- a citizen or resident of the United States;
- a corporation, or other entity taxable as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States, any state thereof or the District of Columbia; or
- an estate or trust the income of which is subject to U.S. federal income taxation regardless of its source.

The discussion herein assumes that a U.S. Holder has not made an election to treat stated interest on the notes as original issue discount (as discussed below).

Payments of stated interest

Stated interest paid on a note will be taxable to a U.S. Holder as ordinary interest income at the time it accrues or is received in accordance with the U.S. Holder’s method of accounting for federal income tax purposes.

Original issue discount

For U.S. federal income tax purposes, if the principal amount of a note exceeds the issue price by more than a *de minimis* amount, as determined under the applicable Treasury Regulations, the excess is treated as “original issue discount.”

It is expected that the notes will not be issued with more than a *de minimis* amount of original issue discount for U.S. federal income tax purposes. If, contrary to expectations, the notes are issued with original issue discount, a U.S. Holder will be required to include the original issue discount in income (as ordinary income) for U.S. federal income tax purposes as it accrues (regardless of the holder’s accounting method for U.S. federal income tax purposes), in accordance with a constant yield method based on a compounding of interest, before the receipt of cash payments attributable to this income. Under this method, a U.S. Holder of the notes generally will be required to include in income increasingly greater amounts of original issue discount in successive accrual periods.

A U.S. Holder may make an election to include in gross income all interest that accrues on a note (including stated interest and original issue discount) in accordance with a constant yield method based on the compounding of interest. Generally, this election will apply only to the note for which it is made. Once made, such an election is irrevocable without the consent of the IRS.

[Table of Contents](#)

Sale, exchange or retirement of the notes

Upon the sale, exchange or retirement of a note, a U.S. Holder will recognize taxable gain or loss equal to the difference between the amount realized on the sale, exchange or retirement and the holder's adjusted tax basis in the note. For these purposes, the amount realized does not include any amount attributable to accrued but unpaid stated interest, which will be treated as interest as described under "Payments of stated interest" above. A U.S. Holder's adjusted tax basis in a note will equal the cost of the note to the holder, increased by the amounts of original issue discount, if any, previously included in income by the holder with respect to the note.

Gain or loss realized on the sale, exchange or retirement of a note generally will be capital gain or loss and will be long-term capital gain or loss if at the time of the sale, exchange or retirement the note has been held for more than one year. For non-corporate taxpayers, long-term capital gains are generally eligible for reduced rates of taxation. The deductibility of capital losses may be subject to limitations.

Backup withholding and information reporting

Information returns may be filed with the IRS in connection with payments on the notes, accrual of original issue discount, if any, and the proceeds from a sale or other disposition of the notes. A U.S. Holder may be subject to U.S. backup withholding on these payments if the U.S. Holder fails to provide its taxpayer identification number to the paying agent and comply with certain certification procedures or otherwise establish an exemption from backup withholding. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a U.S. Holder will be allowed as a credit against the U.S. Holder's U.S. federal income tax liability and may entitle the U.S. Holder to a refund, provided that the required information is timely furnished to the IRS. U.S. Holders should consult their tax advisors concerning the application of information reporting and backup withholding rules.

Tax consequences to Non-U.S. Holders

As used herein, the term "Non-U.S. Holder" means a beneficial owner of a note that is for U.S. federal income tax purposes:

- an individual who is classified as a nonresident for U.S. federal income tax purposes;
- a foreign corporation; or
- a foreign estate or trust.

The term "Non-U.S. Holder" does not include an individual present in the United States for 183 days or more in the taxable year of disposition of a note and who is not otherwise a resident of the United States for U.S. federal income tax purposes. Such a holder is urged to consult his or her tax advisor regarding the U.S. federal income tax consequences of the disposition of a note.

Subject to the discussion below concerning backup withholding and effectively connected income:

- payments of principal, interest, including original issue discount, if any, and premium on the notes by us or any paying agent to any Non-U.S. Holder will not be subject to U.S. federal income or withholding tax, provided that,
 - the beneficial owner does not own, actually or constructively, ten percent or more of the total combined voting power of all classes of our stock entitled to vote, is not a controlled foreign corporation related, directly or indirectly, to us through stock ownership and is not a bank that receives such interest in a transaction described in section 881(c)(3)(A) of the Code; and

Table of Contents

- the beneficial owner of the note certifies on a properly executed IRS Form W-8BEN, under penalties of perjury, that it is not a United States person.
- a Non-U.S. Holder of a note will not be subject to U.S. federal income or withholding tax with respect to gain realized on the disposition of a note.

If a Non-U.S. Holder of a note is engaged in a trade or business in the United States, and if interest (including original issue discount, if any) and/or gain on the note is effectively connected with the conduct of this trade or business, the Non-U.S. Holder, although exempt from the withholding tax discussed in the preceding paragraph, will generally be taxed in the same manner as a U.S. Holder (see “Tax consequences to U.S. Holders” above), except that the Non-U.S. Holder will be required to provide a properly executed applicable IRS Form W-8 in order to claim an exemption from the withholding tax discussed in the preceding paragraph. Holders are urged to consult their tax advisors regarding whether an applicable income tax treaty provides for a different result and regarding other U.S. tax consequences of the ownership and disposition of notes, including the possible imposition of a branch profits tax at a rate of 30% (or a lower treaty rate).

Backup withholding and information reporting

Information returns will be filed with the IRS in connection with payments on the notes. The IRS may make this information available under the provisions of an applicable income tax treaty to the tax authorities in the country in which the Non-U.S. Holder is resident. Unless the Non-U.S. Holder complies with certification procedures to establish that it is not a U.S. person, information returns may be filed with the IRS in connection with the proceeds from a disposition of the notes and the Non-U.S. Holder may be subject to backup withholding with respect to payments on the notes or on the proceeds from a disposition of the notes. The certification procedures required to claim the exemption from withholding tax on interest described above will satisfy the certification requirements necessary to avoid backup withholding as well. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a Non-U.S. Holder will be allowed as a credit against the Non-U.S. Holder’s federal income tax liability and may entitle the Non-U.S. Holder to a refund, provided that the required information is timely furnished to the IRS. Non-U.S. Holders should consult their tax advisors concerning the application of information reporting and backup withholding rules.

UNDERWRITING

We are offering the notes described in this prospectus supplement through the underwriters. Banc of America Securities LLC is the representative of the underwriters. Subject to the terms and conditions of the underwriting agreement, we have agreed to sell to the underwriters, and each underwriter has severally agreed to purchase, the aggregate principal amount of notes listed next to its name in the following table:

<u>Underwriter</u>	<u>Principal Amount of Notes</u>
Banc of America Securities LLC	100,000,000
J.P. Morgan Securities Inc.	100,000,000
Citigroup Global Markets Inc.	80,000,000
HSBC Securities (USA) Inc.	32,000,000
Wells Fargo Securities, LLC	32,000,000
KeyBanc Capital Markets Inc.	8,000,000
Mitsubishi UFJ Securities (USA), Inc.	8,000,000
Mizuho Securities USA Inc.	8,000,000
PNC Capital Markets LLC	8,000,000
RBS Securities Inc.	8,000,000
Santander Investment Securities Inc.	8,000,000
The Williams Capital Group, L.P.	8,000,000
Total	<u>\$ 400,000,000</u>

The underwriting agreement is subject to a number of terms and conditions and provides that the underwriters must buy all of the notes if they buy any of them. The underwriters will sell the notes to the public when and if the underwriters buy the notes from us.

The underwriters have advised us that they propose initially to offer the notes to the public at the public offering price set forth on the cover of this prospectus supplement. After the public offering of the notes, the public offering price and other selling terms may be changed. The underwriters may offer and sell the notes through certain of their affiliates.

In the underwriting agreement, we have agreed that we will not offer or sell any of our debt securities (other than the notes) for a period of 60 days after the date of this prospectus supplement without the prior consent of Banc of America Securities LLC.

We estimate that our share of the total expenses of the offering, excluding underwriting discounts, will be approximately \$1.5 million.

We expect that delivery of the notes will be made against payment therefor on or about May 4, 2010, which will be on the tenth business day following the date the notes are priced, or T+10. Under Rule 15c6-1 of the Securities Exchange Act of 1934, trades in the secondary market generally are required to settle in three business days after the date securities are priced, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes prior to the delivery of the notes hereunder will be required, by virtue of the fact that the notes will settle in T+10, to specify an alternative settlement cycle at the time of any such trade to prevent a failed settlement; such purchasers should also consult their own advisors in this regard.

The following table shows the underwriting discounts and commissions to be paid to the underwriters in connection with this offering (expressed as a percentage of the principal amount of the notes):

	<u>Paid by Us</u>
Per note	2.25%

Table of Contents

We have agreed to indemnify the underwriters against, or contribute to payments that the underwriters may be required to make in respect of, certain liabilities, including liabilities under the Securities Act.

The notes are a new issue of securities with no established trading market. The notes will not be listed on any securities exchange or on any automated dealer quotation system and a trading market for the notes may not develop. The underwriters may make a market in the notes after completion of the offering, but will not be obligated to do so and may discontinue any market-making activities at any time without notice. No assurance can be given as to the liquidity of the trading market for the notes or that an active public market for the notes will develop. Any such market-making will be subject to the limitations imposed by the Securities Act and the Exchange Act. If an active public market for the notes does not develop, the market price and liquidity of the notes may be adversely affected.

In connection with the offering of the notes, certain of the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the notes.

Specifically, the underwriters may overallocate in connection with the offering, creating a short position. In addition, the underwriters may bid for, and purchase, the notes in the open market to cover short positions or to stabilize the price of the notes. Any of these activities may stabilize or maintain the market price of the notes above independent market levels, but no representation is made hereby of the magnitude of any effect that the transactions described above may have on the market price of the notes. The underwriters will not be required to engage in these activities, and may engage in these activities, and may end any of these activities, at any time without notice.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, including securities trading, commercial and investment banking, financial advisory, investment management, principal investment, hedging, financing and brokerage activities. The underwriters and certain of their affiliates have provided and may in the future provide financial advisory, investment banking and commercial and private banking services in the ordinary course of business to us, for which they receive customary fees and expense reimbursement. In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve securities and instruments of the issuer. J.P. Morgan Chase Bank, N.A., an affiliate of J.P. Morgan Securities Inc. currently serves as administrative agent and a lender under our Revolving Facility, and certain of the underwriters or their affiliates are lenders under our Revolving Facility. In addition, we have retained Banc of America Securities LLC to act as the exclusive dealer manager for the concurrent tender offers of the 6.125% senior notes due 2012 and the 5.250% senior notes due 2014, for which it will receive customary fees and reimbursement of reasonable out-of-pocket expenses.

RATIOS OF EARNINGS TO FIXED CHARGES

The table below sets forth our ratios of earnings to fixed charges for the periods indicated. The ratios have been calculated based upon earnings from continuing operations before fixed charges and taxes on income. Fixed charges include interest and an estimate of the portion of minimum rentals that represents interest.

For the Fiscal Years Ended				
January 30, 2010	January 31, 2009	February 2, 2008	February 3, 2007	January 28, 2006
2.8	2.8	5.0	5.7	5.0

For the purpose of calculating the ratios of earnings to fixed charges, we calculate earnings by adding fixed charges and distributions from equity method investees, net of income or losses from equity method investees, to pre-tax income from continuing operations before non-controlling interests in consolidated subsidiaries and cumulative effect of changes in accounting principle. Fixed charges include total interest and a portion of rent expense, which we believe is representative of the interest factor of our rent expense. Interest associated with income tax liabilities is excluded from our calculation. Pre-tax income includes the effect of the following special items:

In the fiscal year ended January 30, 2010: a \$9 million pre-tax gain, \$14 million net of related tax benefits, associated with the reversal of an accrued contractual liability as a result of the divestiture of a joint venture.

In the fiscal year ended January 31, 2009: a \$215 million impairment charge related to goodwill and other intangible assets for our La Senza business, a \$128 million gain related to the divestiture of a personal care joint venture, a \$23 million expense related to restructuring activities, a \$19 million impairment charge related to a joint venture and a \$13 million pre-tax gain related to a cash distribution from Express, LLC.

In the fiscal year ended February 2, 2008: a \$302 million gain related to the divestiture of Express, LLC, a \$100 million pre-tax gain related to a cash distribution from Easton Town Center, LLC, a \$72 million loss related to the divestiture of Limited Stores, LLC, a \$48 million gain related to initial recognition of income for unredeemed gift cards at Victoria's Secret stores, a \$53 million expense related to various restructuring activities, a \$37 million gain related to asset sales and a \$17 million pre-tax gain related to an interest rate hedge.

In the fiscal year ended February 3, 2007: \$26 million in incremental share-based compensation expense related to the effect of adopting the authoritative guidance included in Accounting Standards Codification ("ASC") Subtopic 718, *Compensation – Stock Compensation*.

In the fiscal year ended January 28, 2006: a \$40 million gain of pre-tax interest income related to an Internal Revenue Service tax settlement and a \$30 million gain related to initial recognition of income for unredeemed gift cards at Bath & Body Works and Express stores.

Under our charter, our authorized capital stock consists of:

- 1,000,000,000 shares of common stock with \$.50 par value,
- 10,000,000 shares of preferred stock with \$1.00 par value, and
- On January 30, 2010, there were outstanding:
 - 323 million shares of our common stock;

 - employee stock options and restricted stock awards to issue approximately 24 million shares of our common stock; and
 - no shares of our preferred stock.

Our common stock is listed for trading on the New York Stock Exchange under the trading symbol “LTD.”

Common Stock

If we offer shares of common stock, the prospectus supplement or term sheet will set forth the number of shares offered, the public offering price, information regarding our dividend history and common stock prices as reflected on the New York Stock Exchange or other exchange that the common stock is then listed, including a recent reported last sale price of the common stock.

The outstanding shares of common stock are, and any shares of common stock issued will be, duly authorized, validly issued, fully paid and nonassessable.

Voting Rights

Each holder of common stock is entitled to one vote for each share of common stock held of record on the applicable record date on all matters submitted to a vote of stockholders. Holders of common stock do not have cumulative voting rights.

Dividend Rights

Subject to the rights of any shares of preferred stock which may at the time be outstanding, holders of common stock are entitled to receive dividends as may be declared from time to time by our Board of Directors out of funds legally available therefor.

Rights upon Liquidation or Dissolution

In the event of liquidation or dissolution, each share of common stock is entitled to share pro rata in any distribution of our assets after payment or providing for the payment of liabilities and the liquidation preference of any outstanding preferred stock. Holders of our common stock have no preferential, preemptive, conversion or redemption rights.

Preferred Stock

The following summary contains a description of some of the principal terms of our preferred stock. This description of the principal provisions of our preferred stock does not purport to be complete and is subject to and qualified in its entirety by reference to the applicable provisions of our certificate of incorporation relating to each particular series of preferred stock. The particular terms of any series of preferred stock we offer, including the extent to which the terms described below may apply to that series of preferred stock, will be described in a prospectus supplement relating to that series of preferred stock.

Serial Preferred Stock

Under our certificate of incorporation, without further stockholder action, our Board of Directors is authorized to provide for the issuance of up to 10,000,000 shares of preferred stock. Preferred stock may be issued in one or more series, with such designations of titles, dividend rates, any redemption provisions, special or relative rights in the event of liquidation, dissolution, distribution or winding-up of Limited Brands, Inc., any sinking fund provisions, any conversion provisions, any voting rights, and any other preferences, privileges, powers, rights, qualifications, limitations and restrictions as shall be set forth as and when established by our Board of Directors.

The shares of any series of serial preferred stock will be, when issued, fully paid and nonassessable and the holders will have no preemptive rights in connection with the preferred stock.

Blank Check Preferred Stock

Under our certificate of incorporation, our Board of Directors has the authority, without stockholder approval, to create one or more classes or series within a class of preferred stock, to issue shares of preferred stock in such class or series up to the maximum number of shares of the relevant class or series of preferred stock authorized, and to determine the preferences, rights, privileges and restrictions of any such class or series, including the dividend rights, voting rights, the rights and terms of redemption, the rights and terms of conversion, liquidation preferences, the number of shares constituting any such class or series and the designation of such class or series. Acting under this authority, our Board of Directors could create and issue a class or series of preferred stock with rights, privileges or restrictions, and adopt a stockholder rights plan having the effect of, discriminating against an existing or prospective holder of securities as a result of such stockholder beneficially owning or commencing a tender offer for a substantial amount of our common stock. One of the effects of authorized but unissued and unreserved shares of capital stock may be to render more difficult or discourage an attempt by a potential acquiror to obtain control of Limited Brands, Inc. by means of a merger, tender offer, proxy contest or otherwise, and thereby protect the continuity of our management. The issuance of such shares of capital stock may have the effect of delaying, deferring or preventing a change in control of Limited Brands, Inc. without any further action by our stockholders. We have no present intention to adopt a stockholder rights plan, but could do so without stockholder approval at any future time.

Depository Shares

We may, at our option, elect to offer fractional shares of preferred stock rather than full shares of preferred stock. If we exercise this option, we will issue to the public receipts for depository shares, and each of these depository shares will represent a fraction (to be set forth in the applicable prospectus supplement) of a share of a particular series of preferred stock.

The shares of any series of preferred stock underlying the depository shares will be deposited under a deposit agreement between us and a bank or trust company selected by us. The depository will have its principal office in the United States and a combined capital and surplus of at least \$50,000,000. Subject to the terms of the deposit agreement, each owner of a depository share will be entitled, in proportion to the applicable fraction of a share of preferred stock underlying the depository share, to all of the rights and preferences of the preferred stock underlying that depository share. Those rights may include dividend, voting, redemption, conversion and liquidation rights.

[Table of Contents](#)

The depositary shares will be evidenced by depositary receipts issued under a deposit agreement. Depositary receipts will be distributed to those persons purchasing the fractional shares of preferred stock underlying the depositary shares, in accordance with the terms of the offering. We will describe the material terms of the deposit agreement, the depositary shares and the depositary receipts in a prospectus supplement relating to the depositary shares. You should also refer to the forms of the deposit agreement and depositary receipts that will be filed with the SEC in connection with the offering of the specific depositary shares.

DESCRIPTION OF DEBT SECURITIES AND GUARANTEES OF DEBT SECURITIES

The following description of the terms of the debt securities provides certain general terms and provisions of the debt securities and any related guarantees to which any prospectus supplement may relate. We will describe in any prospectus supplement the particular terms of the debt securities offered and the extent, if any, to which the general provisions apply to the debt securities.

We will issue senior debt securities under an indenture, dated as of March 15, 1988, between us and The Bank of New York, as trustee, as amended by a supplemental indenture, dated as of May 31, 2005, among us, The Bank of New York, as resigning trustee, and The Bank of New York Trust Company, N.A., as successor trustee; as further amended by the second supplemental indenture, dated as of July 17, 2007 between us and The Bank of New York Trust Company, N.A., as trustee; and as will be further amended by a third supplemental indenture to be entered between us and The Bank of New York Mellon Trust Company, N.A., as trustee (the “Senior Debt Indenture”).

We will issue subordinated debt securities under an indenture to be entered into between us and The Bank of New York Mellon Trust Company, N.A., as trustee (the “Subordinated Debt Indenture”).

If so provided in a prospectus supplement or term sheet, the debt securities will have the benefit of the guarantees from the guarantors. Our subsidiaries are separate and distinct legal entities and have no obligation, contingent or otherwise, to pay any amounts due pursuant to the debt securities or to make any funds available therefor, whether by dividends, loans or other payments, other than as expressly provided in the guarantees.

Copies of each indenture and the supplemental indentures are filed as exhibits to the registration statement to which this prospectus relates. The following summary of the indentures does not purport to be complete and is subject to, and qualified in its entirety by reference to, the indentures. Numerical references in parentheses below are to sections in the indentures. Wherever we refer to particular sections of, or defined terms in, the indentures, we intend that these sections or defined terms shall be incorporated herein by reference.

General

The debt securities will be unsecured general obligations of Limited Brands, Inc. and will constitute either senior or subordinated debt of Limited Brands, Inc. With respect to the subordinated debt securities, the payment of principal of, interest on and all other amounts owing in respect of the subordinated debt securities will be subordinated in right of payment to the prior payment in full in cash of principal of, interest on and all other amounts owing in respect of all of our senior indebtedness (as defined below). Upon any payment or distribution of our assets of any kind or character, whether in cash, property or securities, to creditors upon any total or partial liquidation, dissolution, winding up, reorganization, assignment for the benefit of creditors or marshaling of our assets or in a bankruptcy, reorganization, insolvency, receivership or other similar proceeding relating to us or our property, whether voluntary or involuntary, all principal of, interest on and all other amounts due or to become due will be paid, first, to all senior indebtedness in full in cash, or such payment duly provided for to the satisfaction of the holders of senior indebtedness, before any payment or distribution of any kind or character is made on account of any principal of, interest on or other amounts owing in respect of the subordinated debt securities (other than in permitted junior securities), or for the acquisition of any of the subordinated debt securities for cash, property or otherwise.

Table of Contents

As a holding company, our principal source of funds is dividends and advances from subsidiaries. Also, because we are a holding company, our rights and the rights of our creditors, including the holders of debt securities, to participate in the assets of any subsidiary upon the subsidiary's liquidation or reorganization would be subject to the prior claims of such subsidiary's creditors, except to the extent that Limited Brands, Inc. may itself be a creditor with allowable claims against the subsidiary.

If any default occurs and is continuing in the payment when due, whether at maturity, upon any redemption, by declaration or otherwise, of any principal of, premium, interest on, unpaid drawings for letters of credit issued in respect of, or regularly accruing fees with respect to, any senior indebtedness, no payment of any kind or character will be made by or on behalf of us or any other person on our or their behalf with respect to any principal of, interest on or other amounts owing in respect of the subordinated debt securities (other than in permitted junior securities) or to acquire any of the subordinated debt securities for cash, property or otherwise.

If any other event of default occurs and is continuing with respect to any designated senior indebtedness, as such event of default is defined in the instrument creating or evidencing such designated senior indebtedness, permitting the holders of such designated senior indebtedness then outstanding to accelerate the maturity thereof and if the representative (as defined in the applicable indenture) for the respective issue of designated senior indebtedness gives written notice of the event of default to the trustee, then, unless and until all events of default have been cured or waived or have ceased to exist or the trustee receives notice from the representative for the respective issue of designated senior indebtedness terminating the blockage period (as defined below), during the period commencing on the date of receipt of such default notice by the trustee and ending 179 days thereafter, neither we nor any other person on our behalf will:

- make any payment of any kind or character with respect to any principal of, interest on or other amounts owing in respect of the subordinated debt securities (other than in permitted junior securities); or
- acquire any of the subordinated debt securities for cash, property or otherwise.

Notwithstanding anything herein to the contrary, in no event will a blockage period extend beyond 179 days from the date the payment on the subordinated debt securities was due and only one such blockage period may be commenced within any 360 consecutive days. No event of default which existed or was continuing on the date of the commencement of any blockage period with respect to the designated senior indebtedness will be, or be made, the basis for commencement of a second blockage period by the representative of such designated senior indebtedness whether or not within a period of 360 consecutive days unless such event of default will have been cured or waived for a period of not less than 90 consecutive days (it being acknowledged that any subsequent action or any breach of any financial covenants for a period commencing after the date of commencement of such blockage period that, in either case, would give rise to an event of default pursuant to any provisions under which an event of default previously existed or was continuing will constitute a new event of default for this purpose).

As a result of the foregoing provisions, in the event of our insolvency, holders of the subordinated debt securities may recover ratably less than our general creditors.

“Senior indebtedness” means:

- (1) the principal, including redemption payments, premium, if any, interest and other payment obligations in respect of (a) our indebtedness for money borrowed, (b) our indebtedness evidenced by securities, debentures, bonds, notes or other similar instruments issued by us, including any such securities issued under any deed, indenture or other instrument to which we are a party and (c) guarantees of any of the foregoing;
- (2) all of our capital lease obligations;
- (3) all of our obligations issued or assumed as the deferred purchase price of property, all of our conditional sale obligations, all of our hedging agreements and agreements of a similar nature thereto

and all agreements relating to any such agreements, and all of our obligations under any title retention agreement, but excluding trade accounts payable arising in the ordinary course of business;

- (4) all of our obligations for reimbursement on any letter of credit, banker's acceptance, security purchase facility or similar credit transaction;
- (5) all obligations of the type referred to in clauses (1) through (4) above of other persons for the payment of which we are responsible or liable as obligor, guarantor or otherwise;
- (6) all obligations of the type referred to in clauses (1) through (5) above of other persons secured by any lien on any of our property or assets, whether or not such obligation is assumed by us; and
- (7) any deferrals, amendments, renewals, extensions, modifications and refundings of all obligations of the type referred to in clauses (1) through (6) above, in each case whether or not contingent and whether outstanding at the date of effectiveness of the applicable indenture or thereafter incurred,

except, in each case, for the subordinated debt securities and (i) any such other securities to be issued by us in the future that contain express terms, or are issued under a deed, indenture or other instrument, which contains express terms, providing that such securities are subordinate to or rank equal with the subordinated debt securities, (ii) trade accounts payable or accrued liabilities arising in the ordinary course of business and (iii) indebtedness owed by us to our subsidiaries, which also will rank equally in right of payment and upon liquidation to the subordinated debt securities.

Such senior indebtedness will continue to be senior indebtedness and be entitled to the benefits of the subordination provisions of the applicable indenture irrespective of any amendment, modification or waiver of any term of such senior indebtedness and notwithstanding that no express written subordination agreement may have been entered into between the holders of such senior indebtedness and the trustee for any of the holders.

"Permitted junior securities" means:

- our capital stock; or
- debt securities issued pursuant to a confirmed plan of reorganization that are subordinated in right of payment to all senior indebtedness and any debt securities issued in exchange for senior indebtedness that are subordinated to substantially the same extent as, or to a greater extent than, the subordinated debt securities are subordinated to the senior indebtedness under the indenture.

"Designated senior indebtedness" means any senior indebtedness the principal amount of which is at least \$20.0 million or more at the time we designate such senior indebtedness as designated senior indebtedness in a writing delivered to the trustee.

Each indenture provides that debt securities may be issued from time to time in one or more series. We may authorize the issuance and provide for the terms of a series of debt securities pursuant to a supplemental indenture or pursuant to a resolution of our Board of Directors, any duly authorized committee of the Board of Directors or any committee of officers or other representatives of Limited Brands, Inc. duly authorized by the Board of Directors for this purpose.

Each indenture provides Limited Brands, Inc. with the ability to "reopen" a previous issue of a series of debt securities and to issue additional debt securities of such series. The indentures do not limit or otherwise restrict the amount of indebtedness which may be issued in accordance with it or that may otherwise be issued by us or any of our subsidiaries. (Sections 301 and 1301)

The indentures do not contain any covenants or provisions that would afford holders of debt securities protection in the event of a highly-leveraged transaction, reorganization, restructuring or similar transaction.

The prospectus supplement relating to debt securities denominated in a foreign or composite currency will specify the authorized denominations. (Sections 302 and 305)

If the amount of payments of principal of, premium, if any, or any interest on debt securities of any series is determined with reference to any type of index or formula or changes in prices of particular securities or commodities, the federal income tax consequences, specific terms and other information with respect to these debt securities and this index or formula, securities or commodities will be described in the relevant prospectus supplement.

If the principal of, premium, if any, or any interest on debt securities of any series is payable in a foreign or composite currency, the restrictions, elections, federal income tax consequences, specific terms and other information with respect to such debt securities and such currency will be described in the relevant prospectus supplement.

Holders of debt securities (other than global securities) may present them for transfer (with the form of transfer endorsed thereon duly executed) or exchange for other debt securities of the same series at the office of any transfer agent or such other agency as may be designated by Limited Brands, Inc. without service charge and upon payment of any taxes and other governmental charges as described in the indenture. (Section 305)

Payment of principal of and premium, if any, on debt securities will be made in the designated currency against surrender of any debt securities at the Corporate Trust Office of the trustee in The City of New York. Unless otherwise indicated in the prospectus supplement, payment of any installment of interest on debt securities will be made to the person in whose name a relevant debt security is registered at the close of business on the regular record date for such interest. Unless otherwise indicated in the prospectus supplement, payments of such interest will be made at the Corporate Trust Office of the trustee in The City of New York or by a check in the designated currency mailed to the holder at such holder’s registered address. (Sections 307 and 501)

All moneys paid by us to a paying agent for the payment of principal of, or premium, if any, or interest on any debt security that remain unclaimed at the end of two years after such principal, premium or interest shall have become due and payable will be repaid to us, and the holder of such debt security will thereafter look only to us for payment thereof. (Section 503)

Debt securities may be issued as original issue discount securities to be offered and sold at a substantial discount below their stated principal amount. Federal income tax consequences and other special considerations applicable to any original issue discount securities will be described in the relevant prospectus supplement. “Original issue discount security” means any debt security that provides for an amount less than the principal amount thereof to be due and payable upon a declaration of acceleration of the maturity thereof upon the occurrence of an event of default and the continuation thereof. (Section 101)

Global Securities

The debt securities of a series may be issued in the form of one or more fully registered global securities that will be deposited with, or on behalf of, a depositary identified in the prospectus supplement relating to such series. In such case, one or more global securities will be issued in a denomination or aggregate denominations equal to the aggregate principal amount of outstanding debt securities of the series represented by such global security or securities. Unless and until it is exchanged in whole or in part for debt securities in definitive registered form, a global security may not be transferred except as a whole by a depositary for such global security to a nominee of such depositary or by a nominee of such depositary to such depositary or another nominee of such depositary or by such depositary or any such nominee to a successor of such depositary or a nominee of such successor. (Section 303)

The specific terms of the depositary arrangement with respect to a series of debt securities will be described in the prospectus supplement relating to such series. We anticipate that the following provisions will apply to all depositary arrangements, unless otherwise specified in the relevant prospectus supplement.

Upon the issuance of a global security, the depositary for such global security will credit, on its book-entry registration and transfer system, the respective principal amounts of the debt securities represented by such global security to the accounts of persons that have accounts with such depositary ("participants"). The accounts to be credited will be designated by the underwriters or agents with respect to such debt securities or by us if such securities are offered and sold directly by us. Ownership of beneficial interests in a global security will be limited to participants or persons that may hold interests through participants. Ownership of beneficial interests in a global security will be shown on, and the transfer of that ownership will be effected only through, records maintained by the depositary for such global security or by participants or persons that hold beneficial interests through participants. The laws of some states require that certain purchasers of securities take physical delivery of such securities in definitive form. Such limits and such laws may impair the ability to transfer beneficial interests in a global security.

So long as the depositary for a global security, or its nominee, is the registered owner of such global security, such depositary or such nominee, as the case may be, will be considered the sole owner or holder of the debt securities represented by such global security for all purposes under the indenture. Except as set forth below, owners of beneficial interests in a global security will not be entitled to have debt securities of the series represented by such global security registered in their names, will not receive or be entitled to receive physical delivery of debt securities of such series in definitive form and will not be considered the owners or holders of any debt securities under the indenture.

Principal, premium, if any, and interest payments on debt securities registered in the name of a depositary or its nominee will be made to the depositary or its nominee, as the case may be, as the registered owner of a global security representing such debt securities. Limited Brands, Inc., the trustee or any paying agent for such debt securities will not have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the global security or securities for such debt securities or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests. (Section 308)

We expect that the depositary for a series of debt securities, upon receipt of any payment of principal, premium or interest, will credit immediately participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the global security or securities for such debt securities as shown on the records of such depositary. We also expect that payments by participants to owners of beneficial interests in such global security or securities held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such participants.

If a depositary for a series of debt securities is at any time unwilling or unable to continue as depositary and a successor depositary is not appointed by us within ninety days, we will issue debt securities of such series in

Table of Contents

definitive form in exchange for the global security or securities representing such series of securities. In addition, we may at any time and in our sole discretion determine not to have the debt securities of a series represented by one or more global securities and, in such event, will issue debt securities of such series in definitive form in exchange for the global security or securities representing such series of debt securities. (Section 305)

Further, if we make this decision with respect to the debt securities of a series, an owner of a beneficial interest in a global security representing debt securities of such series may, on terms acceptable to us and the depository for such global security, receive debt securities of such series in definitive form. In any such instance, an owner of a beneficial interest in a global security will be entitled to have debt securities of the series represented by such global security equal in principal amount to such beneficial interest registered in its name and will be entitled to physical delivery of such debt securities in definitive form. Debt securities of such series so issued in definitive form will, except as set forth in the applicable prospectus supplement, be issued in denominations of \$1,000 and integral multiples of such amount and will be issued in registered form only without coupons. (Section 305)

Limitations on Liens under the Senior Debt Indenture

We have agreed under the Senior Debt Indenture that we will not, and will not permit any subsidiary (as defined below) to, incur, issue, assume or guarantee any indebtedness for money borrowed if such indebtedness is secured by a pledge of, lien on or security interest in any shares of voting stock (as defined below) of any significant subsidiary (as defined below), whether such voting stock is now owned or is hereafter acquired, without providing that each series of senior debt securities issued under such indenture (together with, if we shall so determine, any other indebtedness or obligations of Limited Brands, Inc. or any subsidiary ranking equally with such senior debt securities and then existing or thereafter created) shall be secured equally and ratably with such indebtedness. The foregoing limitation shall not apply to indebtedness secured by a pledge of, lien on or security interest in any shares of voting stock of any corporation at the time it becomes a significant subsidiary. (Section 504)

The term “subsidiary” means any corporation of which securities entitled to elect at least a majority of the corporation’s directors shall at the time be owned, directly or indirectly, by us or one or more other subsidiaries, or by us and one or more other subsidiaries. (Section 101)

The term “significant subsidiary” means a subsidiary (treated for purposes of this definition on a consolidated basis together with its subsidiaries) which meets any of the following conditions:

- our and our other subsidiaries’ investments in and advances to the subsidiary exceed ten percent of the total assets of ours and our subsidiaries consolidated as of the end of the most recently completed fiscal year;
- our and our other subsidiaries’ proportionate share of the total assets (after intercompany eliminations) of the subsidiary exceeds ten percent of the total assets of ours and our subsidiaries consolidated as of the end of the most recently completed fiscal year; or
- our and our other subsidiaries’ equity in the income from continuing operations before income taxes, extraordinary items and cumulative effect of a change in accounting principles of the subsidiary exceeds ten percent of such income of ours and our subsidiaries consolidated for the most recently completed fiscal year. (Section 504)

The term “voting stock” means capital stock the holders of which have general voting power under ordinary circumstances to elect at least a majority of the Board of Directors of a corporation; provided that, for the purpose of such definition, capital stock which carries only the right to vote conditioned on the occurrence of an event shall not be considered voting stock whether or not such event shall have occurred. (Section 504)

Limitations on Mergers and Sales of Assets

We have agreed under each indenture not to consolidate with or merge into another corporation, or sell other than for cash or lease all or substantially all our assets to another corporation, or purchase all or substantially all the assets of another corporation, unless

- either Limited Brands, Inc. is the continuing corporation or the successor corporation (if other than Limited Brands, Inc.) expressly assumes by supplemental indenture the obligations of the debt securities (in which case, except in the case of such a lease, we will be discharged from these obligations) and
- immediately after the merger, consolidation, sale or lease, we or the successor corporation (if other than us) would not be in default in the performance of any covenant or condition of the respective indenture. (Sections 505 and 1401 of the Senior Debt Indenture and Section 801 of the Subordinated Debt Indenture).

Subsidiary Guarantees

Each prospectus supplement will describe any guarantees of debt securities for the benefit of the series of debt securities to which it relates.

If so provided in a prospectus supplement or term sheet, the notes issued under the Senior Debt Indenture will be guaranteed (each such guarantee being referred to as a “Subsidiary Guarantee”), on a joint and several senior unsecured basis by each of the guarantors on the date such notes are issued. As of April 20, 2010, the guarantors will consist of the following subsidiaries: Bath & Body Works Brand Management, Inc.; Bath & Body Works, LLC; beautyAvenues, Inc.; Intimate Brands, Inc.; Limited Brands Direct Fulfillment, Inc.; Limited Service Corporation; Limited Store Planning, Inc.; Mast Industries, Inc.; Victoria’s Secret Direct Brand Management, LLC; Victoria’s Secret Stores Brand Management, Inc. and Victoria’s Secret Stores, LLC. The obligations of a guarantor under its Subsidiary Guarantee will be limited to the extent necessary to prevent the obligations of such guarantor under its Subsidiary Guarantee from constituting a fraudulent conveyance or fraudulent transfer under federal or state law.

Modification of the Indentures

Each indenture contains provisions permitting us and the trustee, without the consent of the holders of debt securities, to establish, among other things, the form and terms of any series of debt securities issuable under each indenture by one or more supplemental indentures and, with the consent of the holders of not less than a majority in aggregate principal amount of the debt securities at the time outstanding of each series which are affected thereby, to modify each indenture or any supplemental indenture or the rights of the holders of the debt securities of such series to be affected; provided that no such modification will:

- extend the fixed maturity of any debt securities, reduce the rate or extend the time of payment of interest thereon (except for any deferral of interest permitted pursuant to Section 3.01), reduce the principal amount thereof or the premium, if any, thereon, reduce the amount of the principal of original issue discount securities payable on any date, change the coin or currency in which principal of or any premium or interest on any debt securities is payable or impair the right to institute suit for the enforcement of any such payment on or after the maturity thereof, without the consent of the holder of each debt security so affected, or
- reduce the aforesaid percentage of debt securities of any series, the consent of the holders of which is required for any such modification or for the waiver of past default in the case of subordinated debt securities, without the consent of the holders of all debt securities of such series then outstanding, or
- with respect to the subordinated debt securities, modify any provision of Section 606, 1302 or Section 506 of the Subordinated Debt Indenture or
- modify without the written consent of the trustee the rights, duties or immunities of the trustee. (Sections 1301 and 1302)

Defaults

The Senior Debt Indenture provides that events of default with respect to any series of debt securities will be:

- default for 30 days in payment of interest upon any debt security of such series;
- default in payment of principal (other than a sinking fund installment) or premium, if any, on any debt security of such series;
- default for 30 days in payment of any sinking fund installment when due by the terms of the debt securities of such series;
- default, for 90 days after notice, in the performance of any other covenant in the indenture (other than a covenant included in the indenture solely for the benefit of a series of debt securities other than such series);
- certain events of bankruptcy or insolvency. (Section 601); and

The Subordinated Debt Indenture provides that the failure to pay deferred interest on any subordinated debt securities for a period of 30 days after the conclusion of any permitted deferral period constitutes an event of default. (Section 601)

Additional events of default may be applicable to a series of debt securities if so provided in the supplemental indenture or board resolution applicable to such series. The prospectus supplement will describe any such additional events of default. If an event of default with respect to debt securities of any series should occur and be continuing, either the trustee or the holders of 25% in aggregate principal amount of the debt securities of such series then outstanding may declare each debt security of that series due and payable. (Section 602) We will be required to file annually with the trustee a statement of an officer as to the fulfillment of our obligations under the indenture during the preceding year. (Section 506 of the Senior Debt Indenture and Section 505 of the Subordinated Debt Indenture)

No event of default with respect to a single series of debt securities issued under each indenture (and under or pursuant to any supplemental indenture or board resolution) necessarily constitutes an event of default with respect to any other series of debt securities. (Section 602)

Holders of a majority in aggregate principal amount of the debt securities of any series then outstanding will be entitled to control certain actions of the trustee under the indenture and to waive past defaults with respect to such series. (Sections 602 and 606) Subject to the provisions of each indenture relating to the duties of the trustee, the trustee will not be under any obligation to exercise any of the rights or powers vested in it by the respective indenture at the request, order or direction of any of the holders of debt securities, unless one or more of such holders of debt securities shall have offered to the trustee security or indemnity satisfactory to it. (Section 1001)

If an event of default occurs and is continuing with respect to a series of debt securities, any sums held or received by the trustee under each indenture may be applied to reimburse the respective trustee for its reasonable compensation and expenses incurred prior to any payments to holders of debt securities of such series. (Section 605)

The right of any holder of any series of debt securities to institute an action for any remedy (except such holder's right to enforce payment of the principal of, and premium, if any, and interest on such holder's debt security when due) will be subject to certain conditions precedent, including a written notice to the trustee by such holder of the occurrence of one or more events of default with respect to such series of debt securities, a request to the trustee by the holders of not less than 25% in aggregate principal amount of the debt securities of that series then outstanding to take action and an offer satisfactory to the trustee of security and indemnity against liabilities incurred by it in so doing. (Section 607 of the Senior Debt Indenture and Section 602 of the Subordinated Debt Indenture)

[Table of Contents](#)

Satisfaction and Discharge of the Indenture

At our request, an indenture will be cancelled by the trustee and the guarantees will be discharged if all sums due to the trustee under such indenture have been paid in full and

- all debt securities previously issued under such indenture have been cancelled or delivered to the trustee for cancellation,
- the principal of and premium, if any, and the amounts due upon conversion or exchange of, if applicable, and interest on, all debt securities issued under such indenture then outstanding have been paid in full, or
- funds have been deposited with the trustee at the maturity of the debt securities sufficient to pay in full the principal of, and premium, if any, and interest on all debt securities then outstanding. (Sections 1101 and 1102)

Defeasance

If so described in the prospectus supplement relating to debt securities of a specific series, we may discharge our indebtedness and our obligations, together with the obligations of the guarantors, or terminate certain of our obligations under the relevant indenture with respect to the debt securities of such series by depositing funds or obligations issued or guaranteed by the United States of America with the trustee. The prospectus supplement will more fully describe the provisions, if any, relating to such discharge or termination of obligations. (Sections 1103 and 1104)

Concerning the Trustee

The Bank of New York Trust Company, N.A. will be the trustee under each indenture. We have and may from time to time in the future have banking relationships with the trustee in the ordinary course of business.

Each indenture will contain certain limitations on a right of the trustee, as our creditor, to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The trustee will be permitted to engage in other transactions; *provided* that if it acquires any conflicting interest, it must eliminate such conflict or resign.

Subject to the terms of each indenture, the holders of a majority in principal amount of the securities issued and outstanding under each indenture will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy or power available to the trustee.

In case an event of default occurs, and is continuing under either indenture and is actually known to a responsible officer of the trustee, the trustee will exercise such of the rights and powers vested in it by the respective indenture and use the same degree of care and skill in its exercise as a prudent person would exercise or use under the circumstances in the conduct of his own affairs. Subject to such provisions, the trustee will not be under any obligation to exercise any of its rights or powers under either indenture at the request of any of the holders of securities issued under such indenture (including the subordinated debt securities) unless they will have offered to the trustee security and indemnity satisfactory to it.

DESCRIPTION OF WARRANTS

We may issue warrants to purchase our debt or equity securities or securities of third parties or other rights, including rights to receive payment in cash or securities based on the value, rate or price of one or more specified commodities, currencies, securities or indices, or any combination of the foregoing. Warrants may be issued independently or together with any other securities and may be attached to, or separate from, such securities. Each series of warrants will be issued under a separate warrant agreement to be entered into between us and a warrant agent. The terms of any warrants to be issued and a description of the material provisions of the applicable warrant agreement will be set forth in the applicable prospectus supplement.

The applicable prospectus supplement will describe the following terms of any warrants in respect of which this prospectus is being delivered:

- the title of such warrants;
- the aggregate number of such warrants;
- the price or prices at which such warrants will be issued;
- the currency or currencies in which the price of such warrants will be payable;

- currencies; or
- commodities.

[Table of Contents](#)

Each purchase contract will entitle the holder thereof to purchase or sell, and obligate us to sell or purchase, on specified dates, such securities, currencies or commodities at a specified purchase price, which may be based on a formula, all as set forth in the applicable prospectus supplement. We may, however, satisfy our obligations, if any, with respect to any purchase contract by delivering the cash value of such purchase contract or the cash value of the property otherwise deliverable or, in the case of purchase contracts on underlying currencies, by delivering the underlying currencies, as set forth in the applicable prospectus supplement. The applicable prospectus supplement will also specify the methods by which the holders may purchase or sell such securities, currencies or commodities and any acceleration, cancellation or termination provisions or other provisions relating to the settlement of a purchase contract.

The purchase contracts may require us to make periodic payments to the holders thereof or vice versa, which payments may be deferred to the extent set forth in the applicable prospectus supplement, and those payments may be unsecured or prefunded on some basis. The purchase contracts may require the holders thereof to secure their obligations in a specified manner to be described in the applicable prospectus supplement. Alternatively, purchase contracts may require holders to satisfy their obligations thereunder when the purchase contracts are issued.

DESCRIPTION OF UNITS

As specified in the applicable prospectus supplement, we may issue units consisting of one or more purchase contracts, warrants, debt securities, shares of preferred stock, shares of common stock or any combination of such securities. The applicable prospectus supplement will describe:

PLAN OF DISTRIBUTION

We may sell the securities, separately or together in units, in several ways, including:

The prospectus supplement with respect to a particular offering of securities will set forth the terms of the offering of such securities, including the name or names of any underwriters or agents, the purchase price of such securities, the proceeds to Limited Brands, Inc. from such sale, any underwriting discounts and other items constituting underwriters' compensation, any initial public offering price, any discounts or concessions allowed or reallocated or paid to dealers and any securities exchanges on which such securities may be listed.

If underwriters are used in the sale, the securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. Any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time.

Only underwriters named in a prospectus supplement will be deemed to be underwriters in connection with the securities described in such prospectus supplement. Firms not so named will have no direct or indirect participation in the underwriting of such securities, although such a firm may participate in the distribution of such securities under circumstances entitling it to a dealer's commission. We anticipate that any underwriting agreement pertaining to any such securities will:

- entitle the underwriters to indemnification by us against certain civil liabilities under the Securities Act of 1933 (the "Act") or to contribution with respect to payments which the underwriters may be required to make in respect of such liabilities;
- provide that the obligations of the underwriters will be subject to certain conditions precedent; and
- provide that the underwriters generally will be obligated to purchase all such securities if any are purchased.

Securities also may be offered directly by us or through agents designated by us from time to time. Any such agent will be named, and the terms of any such agency (including any commissions payable by us to any such agent) will be set forth, in the prospectus supplement relating to such securities. Unless otherwise indicated in such prospectus supplement, any such agent will act on a best efforts basis for the period of its appointment. Agents named in a prospectus supplement may be deemed to be underwriters (within the meaning of the Act) of the securities described in such prospectus supplement and, under agreements which may be entered into with us, may be entitled to indemnification by us against certain civil liabilities under the Act or to contribution with respect to payments which the agents may be required to make in respect of such liabilities.

We may enter into derivative or other hedging transactions with financial institutions. These financial institutions may in turn engage in sales of common stock to hedge their position, deliver this prospectus in connection with some or all of those sales and use the shares covered by this prospectus to close out any short position created in connection with those sales. We may also sell shares of common stock short using this prospectus and deliver common stock covered by this prospectus to close out such short positions, or loan or pledge common stock to financial institutions that in turn may sell the shares of common stock using this prospectus. We may pledge or grant a security interest in some or all of the common stock covered by this prospectus to support a derivative or hedging position or other obligations and, if we default in the performance of our obligations, the pledgees or secured parties may offer and sell the common stock from time to time pursuant to this prospectus.

Underwriters and agents may be customers of, engage in transactions with, or perform services for, Limited Brands, Inc. and its subsidiaries in the ordinary course of business.

If so indicated in a prospectus supplement, we will authorize underwriters, dealers or other agents of ours to solicit offers by certain specified entities to purchase securities from us pursuant to contracts providing for payment and delivery at a future date. The obligations of any purchaser under any such contract will not be subject to any conditions except those described in such prospectus supplement. Such prospectus supplement will set forth the commissions payable for solicitations of such contracts.

Underwriters and agents may from time to time purchase and sell securities in the secondary market, but are not obligated to do so, and there can be no assurance that there will be a secondary market for the securities or liquidity in the secondary market if one develops. From time to time, underwriters and agents may make a market in the securities.

One or more firms, referred to as "remarketing firms," may also offer or sell the securities, if the prospectus supplement so indicates, in connection with a remarketing arrangement upon their purchase. Remarketing firms will act as principals for their own accounts or as agents for us. These remarketing firms will offer or sell the securities in accordance with a redemption or repayment pursuant to the terms of the securities. The prospectus supplement will identify any remarketing firm and the terms of its agreement, if any, with us and will describe the remarketing firm's compensation. Remarketing firms may be deemed to be underwriters in connection with

the securities they remarket. Remarketing firms may be entitled under agreements that may be entered into with us to indemnification by us against certain civil liabilities, including liabilities under the Act, as amended, and may be customers of, engage in transactions with or perform services for us in the ordinary course of business.
